Mader, 2018-01-15 THE MADER WINDELSPECHT STORY The thirteenth edition of Biology is a traditional comprehensive introductory biology textbook with coverage from Cell Structure and Function to the Conservation of Biodiversity The book which centers on the evolution and diversity of organisms is appropriate for any one or two semester biology course Biology 13th Edition is the

epitome of Sylvia Mader's expertise. Its concise, precise writing style employs lucid language to present the material as succinctly as possible, enabling students, even non-majors, to master the foundational concepts before coming to class. Before You Begin Following the Themes and Thematic Feature Readings piece together the three major themes of the text: evolution, nature of science, and biological systems. Students are consistently engaged in these themes, revealing the interconnectedness of the major topics in biology. Sylvia Mader typifies an icon of science education. Her dedication to her students, coupled with her clear, concise writing style, has benefited the education of thousands of students over the past three decades. The integration of the text and digital world has been achieved with the addition of Dr. Michael Windelspecht's facility for the development of digital learning assets. For over ten years, Michael served as the Introductory Biology Coordinator at Appalachian State University, a program that enrolls over 4,500 non-science majors annually. Michael is the lead architect in the design of McGraw-Hill's Connect media content for the Mader series. These assets allow instructors to easily design interactive tutorial materials, enhance presentations in both online and traditional environments, and assess the learning objectives and outcomes of the course.

A Writing Center Practitioner's Inquiry into Collaboration Georganne Nordstrom, 2021-02-01. This book presents a model of Practitioner Inquiry (PI) as a systematic form of empirical research and provides a rationale for its suitability within a writing center context. Exploring the potential of writing centers as pedagogical sites that support research, the book offers an accessible model that guides both research and practice for writing center practitioners while offering flexibility to account for their distinct contexts of practice. Responding to the increasing call in the field to produce empirical, replicable, aggregable, data-driven research, the author explores Practitioner Inquiry through explication of methodology and methods, a revisitation of collaboration to guide both practice and research, and examples of application of the model. Nordstrom grounds this research and scholarship in Hawai'i's context and explores Indigenous concepts and approaches to inform an ethical collaborative practice. Offering significant contributions to empirical research in the fields of writing center studies, composition, and education, this book will be of great relevance to writing center practitioners, anyone conducting empirical research, and researchers working in tutor professionalization, collaboration, translingual literacy practices, and research methodologies.
