## **Instant Data Intensive Apps With Pandas How To Hauck Trent:**

**Instant Data Intensive Apps with Pandas How-to** Trent Hauck, 2013 Filled with practical step by step instructions and clear explanations for the most important and useful tasks This book has a practical approach with step by step recipes to help readers get to grips with Pandas Users of other data analysis tools will find value in seeing tasks they commonly encounter translated to Pandas and users of Python will encounter an introduction to a very impressive tool in a syntax they inherently know In terms of general skills it is assumed that the reader understands basic data structures such as arrays or lists dictionaries or hash map as well as having some understanding of command line work Installing Pandas is not covered but the online documentation is straightforward Also readers are encouraged to use IPython to interact and experiment with the code

**scikit-learn Cookbook** Julian Avila, Trent Hauck, 2017-11-16 Learn to use scikit learn operations and functions for Machine Learning and deep learning applications About This Book Handle a variety of machine learning tasks effortlessly by leveraging the power of scikit learn Perform supervised and unsupervised learning with ease and evaluate the performance of your model Practical easy to understand recipes aimed at helping you choose the right machine learning algorithm Who This Book Is For Data Analysts already familiar with Python but not so much with scikit learn who want quick solutions to the common machine learning problems will find this book to be very useful If you are a Python programmer who wants to take a dive into the world of machine learning in a practical manner this book will help you too What You Will Learn Build predictive models in minutes by using scikit learn Understand the differences and relationships between Classification and Regression two types of Supervised Learning Use distance metrics to predict in Clustering a type of Unsupervised Learning Find points with similar characteristics with Nearest Neighbors Use automation and cross validation to find a best model and focus on it for a data product Choose among the best algorithm of many or use them together in an ensemble Create your own estimator with the simple syntax of sklearn Explore the feed forward neural networks available in scikit learn In Detail Python is quickly becoming the go to language for analysts and data scientists due to its simplicity and flexibility and within the Python data space scikit learn is the unequivocal choice for machine learning This book includes walk throughs and solutions to the common as well as the not so common problems in machine learning and how scikit learn can be leveraged to perform various machine learning tasks effectively The second edition begins with taking you through recipes on evaluating the statistical properties of data and generates synthetic data for machine learning modelling As you progress through the chapters you will come across recipes that will teach you to implement techniques like data pre processing linear regression logistic regression K NN Naive Bayes classification decision trees Ensembles and much more Furthermore you will learn to optimize your models with multi class classification cross validation model evaluation and dive deeper in to implementing deep learning with scikit learn Along with covering the enhanced features on model section API and new features like classifiers regressors and estimators the book also contains recipes on evaluating and fine tuning the

performance of your model By the end of this book you will have explored plethora of features offered by scikit learn for Python to solve any machine learning problem you come across Style and Approach This book consists of practical recipes on scikit learn that target novices as well as intermediate users It goes deep into the technical issues covers additional protocols and many more real live examples so that you are able to implement it in your daily life scenarios [Scikit-Learn Cookbook](#) Trent Hauck,2014-10-31 If you re a data scientist already familiar with Python but not Scikit Learn or are familiar with other programming languages like R and want to take the plunge with the gold standard of Python machine learning libraries then this is the book for you [scikit-learn : Machine Learning Simplified](#) Raul Garreta,Guillermo Moncecchi,Trent Hauck,Gavin Hackeling,2017-11-10 Implement scikit learn into every step of the data science pipeline About This Book Use Python and scikit learn to create intelligent applications Discover how to apply algorithms in a variety of situations to tackle common and not so common challenges in the machine learning domain A practical example based guide to help you gain expertise in implementing and evaluating machine learning systems using scikit learn Who This Book Is For If you are a programmer and want to explore machine learning and data based methods to build intelligent applications and enhance your programming skills this is the course for you No previous experience with machine learning algorithms is required What You Will Learn Review fundamental concepts including supervised and unsupervised experiences common tasks and performance metrics Classify objects from documents to human faces and flower species based on some of their features using a variety of methods from Support Vector Machines to Naive Bayes Use Decision Trees to explain the main causes of certain phenomena such as passenger survival on the Titanic Evaluate the performance of machine learning systems in common tasks Master algorithms of various levels of complexity and learn how to analyze data at the same time Learn just enough math to think about the connections between various algorithms Customize machine learning algorithms to fit your problem and learn how to modify them when the situation calls for it Incorporate other packages from the Python ecosystem to munge and visualize your dataset Improve the way you build your models using parallelization techniques In Detail Machine learning the art of creating applications that learn from experience and data has been around for many years Python is quickly becoming the go to language for analysts and data scientists due to its simplicity and flexibility moreover within the Python data space scikit learn is the unequivocal choice for machine learning The course combines an introduction to some of the main concepts and methods in machine learning with practical hands on examples of real world problems The course starts by walking through different methods to prepare your data be it a dataset with missing values or text columns that require the categories to be turned into indicator variables After the data is ready you ll learn different techniques aligned with different objectives be it a dataset with known outcomes such as sales by state or more complicated problems such as clustering similar customers Finally you ll learn how to polish your algorithm to ensure that it s both accurate and resilient to new datasets You will learn to incorporate machine learning in your applications Ranging from handwritten digit recognition to document classification

examples are solved step by step using scikit learn and Python By the end of this course you will have learned how to build applications that learn from experience by applying the main concepts and techniques of machine learning Style and Approach Implement scikit learn using engaging examples and fun exercises and with a gentle and friendly but comprehensive learn by doing approach This is a practical course which analyzes compelling data about life health and death with the help of tutorials It offers you a useful way of interpreting the data that s specific to this course but that can also be applied to any other data This course is designed to be both a guide and a reference for moving beyond the basics of scikit learn
