Copyright Office,1968 *On Style in Victorian Fiction* Daniel Tyler,2022-01-06 Some writers of the Victorian period as well as more recent critics have argued that the prose style of Victorian fiction aims to efface itself or that an absence of style may in itself represent the nineteenth century ideal This collection provides a major assessment of style in Victorian fiction and demonstrates that style the language techniques and artistry of prose is inseparable from meaning and that it is through the many resources of style that the full compass of meaning makes itself known Leading scholars in the field present an engaging assessment of major Victorian novelists illustrating how productive and illuminating close attention to literary style

can be Collectively they build a fresh and nuanced understanding of how style functioned in the literature of the nineteenth century and propose that the fiction of this era demands we think about what style does as much as what style is *The Architect* ,1879 **Architect** ,1879 The Spectator ,1840 A weekly review of politics literature theology and art
