Later A Guide To Parenting A Young Adult:

Later! Gill Hines, Alison Baverstock, 2014-09-04 One minute you are taking your child to school the next they're turning into a young adult. It may seem like only months since you were first filling your child's lunch box but the school career moves with such momentum that it isn't long before they are facing the challenges of further education, job hunting and living independently. This new book will help you to encourage self-reliance in your nearly grown children and prepare them for independence in the real world. It also shows how you can prepare for a time when your child's excitement at the prospect of leaving school, going to university or just living on their own leaves you feeling passed over and obsessed by detail they see as unimportant. How do you start to think about what to do with the rest of your life, picking up on ambitions both personal and professional and prioritising your own friends and interests? And how do you handle the situation when, as is increasingly common, children later decide to return home to live? This book addresses current issues such as boomerang kids, sofa syndrome and how to motivate money management for a generation disinclined to save the home of Mum and Dad and much more. *Later* is an empathetic guide to making sense of life at a time when all the ground rules need to be reconsidered if not renegotiated. Packed with strategies, exercises and question and answer sections, *Later* is user-friendly and entirely practical. It considers the hopes and plans of parents and children alike and in the process demonstrates how to move on while sustaining a supportive, happy relationship.

Waite-Jones, *Parents, Children, Teens, and Psychological Viewpoints on Parenting Practices in Kuwait and Greece* Juliet Dinkha,2023-05-08 Stories make up our lives from birth till the end they help us make sense of ourselves others and experiences in the world Throughout this book the authors explore one of the most vital of stories childhood and child rearing with individuals from Greece and the Middle East Each story presented shares a unique and subjective insight into the realm of parenting What is parenting and how does it differ The authors examine the unique cultural norms generational disparities childhood experiences and trauma that play a role in parenting They offer a depth of insight into childhood needs and include tales from families sharing theirperspectives The authors invite readers to join them on an explorative journey to the East where narratives meet scientific literature providing a close view into different homes and worlds [The Pinch](#) David Willetts,2011-05-01 The baby boom of 1945 65 produced the biggest richest generation that Britain has ever known Today at the peak of their power and wealth baby boomers now run the country by virtue of their sheer demographic power they have fashioned the world around them in a way that meets all of their housing healthcare and financial needs In this original and provocative book David Willetts shows how the baby boomer generation has attained this position at the expense of their children Social cultural and economic provision has been made for the reigning section of society whilst the needs of the next generation have taken a back seat Willetts argues that if our political economic and cultural leaders do not begin to discharge their obligations to the future the young people of today will be taxed more work longer hours for less money have lower social mobility and live in a degraded environment in order to pay for their parents quality of life Baby boomers worried about the kind of world they are passing on to their children are beginning to take note However whilst the imbalance in the quality of life between the generations is becoming more obvious what is less certain is whether the older generation will be willing to make the sacrifices necessary for a more equal distribution The Pinch is a
