Understanding Latin America: A Decoding Guide Alfredo Toro Hardy,2017-10-06 From afar Latin America looks like a blurry tableau devoid of defining lines particularities and nuances Little is understood about the idiosyncrasies of Latin Americans their cultural identity and social values Differences between Brazilians and Spanish Americans or amid the diverse Spanish American countries are not sufficiently understood Even less is known about the amplitude of the Iberian heritage of such countries or about the miscegenation and acculturation processes that took place among their different constitutive races There is no clarity regarding the Western nature of Latin America or about its cultural affinities with Latin Europe Nor is there sufficient understanding of the links between the Latin population of the United States and the inhabitants of Latin America This book aims to fill the gap by focusing on Latin America s history culture identity and idiosyncrasies It serves as a guide to understand regional attitudes meanings and behavioural differences of the region It also analyses the present economic situation of the region while trying to predict the future of the region Written in a simple and accessible manner this book will be of interest to readers keen on exploring the region for potential opportunities in trade investment or any other kind of business and cultural endeavor

Hispanic Muslims in the United States Victor Hugo Cuartas,2020-03-31 The empirical case in this study is that of the Hispanic Catholic converts to Islam in the Washington DC Metropolitan and New Jersey areas of the United States The central research question is To what extent do Hispanic Muslim converts play a role in making different choices regarding religious commitment and practice The argument is that not only do both the more and less active converts play a central role in making choices during the pre affiliation and post affiliation stages but that these choices can often be strategic in nature as they practice the new religion in the United States These choices are shaped by multiple factors This contributes to a new understanding of the prevailing debates among Muslims in Europe and the United States on the nature of Muslim minorities in the West that Muslims here are not merely transplanted but are active participants of diverse expressions of

local Islam The evidence in my research shows that being less active does not mean converts do not play a role or make choices Both more active and less active converts make choices based on multiple factors This is especially significant as the main aim of this thesis is to show that the converts make choices and play a role in the post affiliation stage and that these often have strategic elements *The Condition of Education for Hispanic Americans* National Center for Education Statistics,1980 **Racial and Ethnic Tensions in American Communities: The Los Angeles report** ,1993
