

Again, the principle of "the securing and training of proper persons is at the root of efficiency", it can be affirmed that rights availed to a policeman, holds significant influence on the law enforcement efficiencies of a society. Apparently, if the rights are availed to wrong person, who is observed as incompetent to understand and likewise, responds to their responsibilities, it might impose grave consequences on the societal health. Therefore, it was considered as quite vital that the selection and training of policemen made in accordance to a set standard to proper personnel who will be suitable for the department (Olsen, 2011).

Do you feel that enough has been done in Law Enforcement to Develop the Proper Demeanor of Law Enforcement Officers?

As per my understanding, in order to implement the principle of maintaining a perfect command of temper amidst the policemen, enough law enforcements have been done. For instance, the 'Law Enforcement Code of Ethics' has been finalized and is implemented to generate adequate awareness and oblige policemen to maintain ethical conduct remaining calm and focused by controlling their temper. However, the change in the ethical and the cultural ways of living amidst the current period may highlight the need of changes in some policies (Lawriter LLC, 2008).

Again, the law provisions enacted under the "4973.17 Commission for special police officers - term of office - training" states the different criteria which are necessary requirements for becoming a police officer. However, there are certain factors that can improve the Demeanor of a police officer if implemented during their training session (Lawriter LLC, 2008).
