Martin Krypton Manual:

Energy Manual Manfred Hegger, Matthias Fuchs, Thomas Stark, Martin Zeumer, 2012-12-10 While the efficiency and sustainability offensive is in full swing in most sectors of the economy in the construction sector it is still in its very beginnings economically as well as ecologically However politicians and policymakers at the global European and national levels have begun to address this deficit and are seeking to correct it with legal requirements and laws like EnEV building certifications and competitions Following the proven model of earlier manuals in the series the Energy Manual presents a comprehensive look at the constructional parameters of energy efficiency and sustainability It offers an advance look at the legal regulations being planned by the EU and as a tool ready for immediate use by architects engineers and designers in their daily work it points the way toward the efficient and sustainable construction and operation of buildings With its focus on the entire lifecycle of a building it provides an integrated perspective a necessary prerequisite for sustainable economic management

Essential Physics for Manual Medicine E-Book Martin Ferrier Young, 2009-09-16 A textbook that covers Physical concepts at a basic level for manual therapists specifically Clinicians in general and manual therapists in particular have a need to understand certain specific aspects of physics to an advanced level However many lack prior education in this area with chemistry and biology A levels being emphasized in terms of entrance requirements Most textbooks aimed at this field concentrate exclusively on the physics underpinning biomechanics but the level at which these books are pitched is often too high to allow understanding by students who have an inadequate background in the subject This book acts in part as a primer to address this deficit Students are also required to understand the basic physics underpinning physiology biochemistry radiography and therapeutics This textbook will be a guide to these specialist areas of knowledge This text will cover biophysics as a core subject to guide the potential clinician from total ignorance to complete mastery in the areas of physics pertinent to manual medicine and its related disciplines Self assessment questions at the beginning of each chapter allow readers to check their existing knowledge prior to reading the chapter Each section builds from basic principles to advanced levels Clinical focus
