NetherBound Meryl S. Kavanagh,2017-01-31 In the sequel to Meryl S Kavanagh s PaxCorpus and Escape Velocity Morgan Karga awakens on a derelict space vessel known only as the Tredecim trapped within a super massive black hole and life support running out With her entire crew either missing or dead with only the help of the ship s artificial intelligence she must simultaneously force her way through her past and find the betrayer before time runs out But when she does when she finally breaks free over the event horizon a much darker truth is revealed Millions of light years from Andromeda the Tredecim orbits a rogue planet host to a partially synthetic race that closely resembles humanity Upon descending to the planet s surface she quickly realizes that even the reality of her own existence is extremely flawed and then she s taken in Through conversation it is revealed that this particular rogue planet is not just any rogue planet It is Earth Everything all of the bad and the destruction the murder and the betrayal all of this can be traced back to one person and one person alone Julianna Moretti maniacal madwoman on a rampage to bring down both galaxies and reign in humanity as their supreme leaders and if you know anything about supremacist regimes they are nothing short of terrifying With the help of her new romantic partner Paige a woman who has existed on old Earth for more time than you could possibly fathom and a few new additions to the crew they have only one mission Stop Julianna and secure all life that remains on Earth before the catastrophic event that triggers the imbalance of it s gravitational poles But everything good or bad comes with a cost

From Bacteria to Bach and Back: The Evolution of Minds Daniel C. Dennett,2017-02-07 A supremely enjoyable intoxicating work Nature How did we come to have minds For centuries poets philosophers psychologists and physicists have wondered how the human mind developed its unrivaled abilities Disciples of Darwin have explained how natural selection produced plants but what about the human mind In From Bacteria to Bach and Back Daniel C Dennett builds on recent

discoveries from biology and computer science to show step by step how a comprehending mind could in fact have arisen from a mindless process of natural selection A crucial shift occurred when humans developed the ability to share memes or ways of doing things not based in genetic instinct Competition among memes produced thinking tools powerful enough that our minds don't just perceive and react they create and comprehend An agenda setting book for a new generation of philosophers and scientists From Bacteria to Bach and Back will delight and entertain all those curious about how the mind works

Financial Reckoning Day Addison Wiggin, William Bonner, 2023-10-11 An engaging and practical romp through contemporary financial and economic history and what it means for your financial future Economic booms and busts are happening with more frequency Since the turn of the new millennium fortunes have been made and lost at a blistering pace Each boom is like the tension building up before an earthquake Seismologists can detect the build up but they can't necessarily explain why or when the next quake will hit Economic busts can be equally devastating and followed by numerous aftershocks In this entertaining romp through recent economic and financial history best selling author Addison Wiggin traces the primary trends that have led up to rapid economic growth and innovation while keeping an eye on the inevitable downturn The author practices literary economics telling stories about the characters behind the scenes and their motives making this wide ranging book easy to read The current edition has been revised adapted and reimagined enlightening readers about what's happening behind today's top headlines The rise of new financial innovations over the past decade including cryptocurrencies mobile trading platforms and the democratization of financial markets How the policies of the Federal Reserve following the Panic of 08 led an entire generation to become unwitting speculators in stocks bonds real estate and rare commodities What impact new political trends environmental social governance ESG and diversity equity and inclusion DEI have had on managing your own money Ultimately the book helps place current events in the context of identifiable historical trends The book proposes that when you understand what the primary trends are and follow them to their logical conclusion it makes planning for your financial future much easier What will be the role of the US economy in the future as policy makers try to grapple with new competition economic and political from Brazil Russia India China the so called BRICs The author follows the facts the trends and the stories that make up history and parlays them into forecasts for what he sees coming next Ultimately you'll get a review of previous trades and a new Trade of the Decade
