US-Chinese Strategic Triangles S. Mahmud Ali,2017-06-07 This book reveals the nature of Sino US strategic competition by examining the influence exerted by major

secondary stakeholders e.g. Japan, Russia, India, the Koreas, and ASEAN, on the two powers, USA and its rival China, who consider each other as a source of greatest challenges to their respective interests. By adopting strategic triangles as the analytical framework and assessing triangular relational dynamics such as US-China-Japan or US-China-Russia, the author illustrates how secondary stakeholders advance their own interests by exploiting their respective linkages to the two rivals, thereby shaping Sino-US competitive dynamics. This work adds a regional and multivariable perspective to the understanding of the Indo-Pacific's insecurity challenges.

Interdisciplinary Approaches to Multilingualism Suzanne Curtin, Mary Grantham O'Brien, Rahat Naqvi, 2015-07-16. This research topic stems from the Interdisciplinary Approaches to Multilingualism conference which was hosted by the Language Research Centre at the University of Calgary. It was the first conference of its kind which brought together the work of researchers, educators, and policy makers in the areas of first and second language acquisition from psycholinguistic and pedagogical perspectives. The goal was to provide an opportunity for participants to engage with the implications of multilingualism from a range of perspectives, including the effects of being bilingual from infancy to adulthood, the process and benefits of learning multiple languages, and the impact of multilingualism on society.

Building the Federal Schoolhouse Douglas S. Reed, 2014. Creating a truly national school system has, over the past fifty years, reconfigured local expectations and practices in American public education. Through a 50-year examination of Alexandria, Virginia, this book reveals how the education state is nonetheless shaped by the commitments of local political regimes and their leaders and constituents.

Exploring Management John R. Schermerhorn, Jr., Daniel G. Bachrach, 2017-10-16. of the AR 15 presents the epic history of America's most controversial weapon. In the 1950s an obsessive firearms designer named Eugene Stoner invented the AR 15 rifle in a California garage. High minded and patriotic Stoner sought to devise a lightweight easy to use weapon that could replace the M1s touted by soldiers in World War II. What he did create was a lethal handheld icon of the American century. In *American Gun* the veteran Wall Street Journal reporters Cameron McWhirter and Zusha Elinson track the AR 15 from inception to ubiquity. How did the same gun represent the essence of freedom to millions of Americans and the essence of evil to millions more? To answer this question McWhirter and Elinson follow Stoner the American Kalashnikov as he struggled mightily to win support for his invention which under the name M16 would become standard equipment in Vietnam. Shunned by gun owners at first the rifle's popularity would take off thanks to a renegade band of small time gun makers. And in the 2000s it would become the weapon of choice for mass shooters prompting widespread calls for proscription even as the gun industry embraced it as a financial savior. Writing with fairness and compassion McWhirter and Elinson explore America's gun culture revealing the deep appeal of the AR 15 the awful havoc it wreaks and the politics of reducing its toll. The result is a moral history of contemporary America's love affair with technology, freedom and weaponry. Includes 8 pages of black and white images.
