Water Law, Policy and Economics in Italy Paolo Turrini, Antonio Massarutto, Marco Pertile, Alessandro de Carli, 2021-05-12 This book provides the first comprehensive overview of the most important water related issues that centre on Italy analysed from several disciplinary perspectives such as hydrology economics law sociology environmental sciences and policy studies in order to promote full understanding of the challenges the country is facing and the ways it could best tackle them Despite the misconception that Italy is a water scarce country is in fact quite rich in water resources Such resources however are unevenly distributed over the Italian territory Italy s northern regions rely on quite an abundant quantity of freshwater whereas in the southern area water endowment is limited Moreover climatic differences between North and South contribute to widen the divide This disparity has notable consequences of socio economic character some of which in turn feed back into the environmental conditions of Italian regions pollution floods landslides and droughts are among the problems affecting the country There are numerous features of water use and consumption that distinguish Italy from other comparable countries such as the significant role played by agriculture a water intensive activity a lead position in the consumption of bottled water lower than average prices of water and a far from optimal efficiency of waterworks All such aspects and many others make Italy an essential case study

Global Media Giants Benjamin Birkinbine, Rodrigo Gomez, Janet Wasko, 2016-07-01 Global Media Giants takes an in depth look at how media corporate power works globally regionally and nationally investigating the ways in which the largest and most powerful media corporations in the world wield power Case studies examine not only some of the largest media corporations News Corp The Microsoft Corporation in terms of revenues but also media corporations that hold considerable power within national regional or geolinguistic contexts Televisa The Bertelsmann Group Sony Corporation Each chapter approaches a different corporation through the lens of economy politics and culture giving students and scholars a thoughtful and data driven guide with which to interrogate contemporary media industry power

Charter School Report Card Shawgi Tell, 2016-04-01 What is a charter school Where do they come from Who promotes them and why What are they supposed to do Are they the

silver bullet to the ills plaguing the American public education system This book provides a comprehensive and accessible overview and analysis of charter schools and their many dimensions It shows that charter schools as a whole lower the quality of education through the privatization and marketization of education The final chapter provides readers with a way toward rethinking and remaking education in a way that is consistent with modern requirements Society and its members need a fully funded high quality public education system open to all and controlled by a public authority *Economic Outlook for Southeast Asia, China and India 2020 Rethinking Education for the Digital Era* OECD,2019-12-11 The Economic Outlook for Southeast Asia China and India is a bi annual publication on regional economic growth development and regional integration in Emerging Asia It focuses on the economic conditions of Association of Southeast Asian Nations ASEAN member countries Brunei Darussalam Cambodia Indonesia Lao PDR Malaysia Myanmar the Philippines Singapore Thailand and Viet Nam It also addresses relevant economic issues in China and India to fully reflect economic developments in the region *Thailand* International Monetary Fund. Asia and Pacific Dept,2015-05-07 This 2015 Article IV Consultation highlights that after a sharp contraction in the first quarter of 2014 Thailand s economy experienced a modest recovery in subsequent quarters to expand by 0.7 percent in the year as a whole Inflation decelerated toward the end of 2014 and became negative in January 2015 owing to a sharp decline in oil prices The recovery is expected to continue in 2015 with growth projected at 3.7 percent on account of some rebound in consumption including from lower fuel prices and in private investment as backlogs of project approvals have been largely cleared by various government agencies Advanced Mathematical Methods for Economic Efficiency Analysis Pedro Macedo,Victor Moutinho,Mara Madaleno,2023-06-21 Economic efficiency analysis has received considerable worldwide attention in the last few decades with Stochastic Frontier Analysis SFA and Data Envelopment Analysis DEA establishing themselves as the two dominant approaches in the literature This book by combining cutting edge theoretical research on DEA and SFA with attractive real world applications offers a valuable asset for professors students researchers and professionals working in all branches of economic efficiency analysis as well as those concerned with the corresponding economic policies The book is divided into three parts the first of which is devoted to basic concepts making the content self contained The second is devoted to DEA and the third to SFA The topics covered in Part 2 range from stochastic DEA to multidirectional dynamic inefficiency analysis including directional distance functions the elimination and choice translating algorithm benefit of the doubt composite indicators and internal benchmarking for efficiency evaluations Part 3 also includes exciting and cutting edge theoretical research on e.g robustness nonparametric stochastic frontier models hierarchical panel data models and estimation methods like corrected ordinary least squares and maximum entropy Scientific and Technical Aerospace Reports ,1963 **The Report: Thailand 2016** Oxford Business Group,2016-04-15 According to the UN Conference on Trade and Development Thailand has been among eight priority destinations for foreign investment since 2012 Factors weighing on growth in 2016 will include an ongoing

economic slowdown weakening global demand for Thai exports and growing levels of consumer debt The government's investment promotion agenda while perhaps more complicated than in previous years also addresses the dual challenge of labour shortages and the middle income trap through promotion of both labour intensive and high tech industries while potential membership in two major trade blocs could see regional and international exports soar in the coming years Although the near term forecast is dampened by global volatility weakening demand and the impact of China's slowdown trade in Thailand will remain on an upwards trajectory in 2016 and investment though unlikely to meet government targets is nonetheless expected to bounce back from a challenging 2015

Core-periphery Relations in the European Union José Magone, Brigid Laffan, Christian Schweiger, 2016-02-26 Successive Enlargements to the European Union membership have transformed it into an economically politically and culturally heterogeneous body with distinct vulnerabilities in its multi level governance This book analyses core periphery relations to highlight the growing cleavage and potential conflict between the core and peripheral member states of the Union in the face of the devastating consequences of Eurozone crisis Taking a comparative and theoretical approach and using a variety of case studies it examines how the crisis has both exacerbated tensions in centre periphery relations within and outside the Eurozone and how the European Union's economic and political status is declining globally This text will be of key interest to students and scholars of European Union studies European integration political economy public policy and comparative politics

Teach Janice Koch, 2019-01-02 Teach is a concise introduction to education that challenges students preconceived notions of teaching in order to transform them into reflective practitioners Empathizing with the difficulties students face as they move from the college classroom to their own classrooms revered author Janice Koch invites readers to both reflect on their own dispositions for teaching and look outside of themselves to the demands of the profession making the philosophy of teaching and learning accessible and relevant The Fourth Edition emphasizes the changing student population and the role of technology and globalization in the field while also including the Interstate Teacher Assessment and Support Consortium InTASC standards correlating with each chapter's content With the guidance of this supportive text students will gain vital exposure by engaging with professional standards from the very start of their career

Building a Moral Economy Cynthia D. Moe-Lobeda, 2024-11-12 This introductory volume in the Building a Moral Economy series invites readers into a new vision for the future of economic life together Ethicist Cynthia Moe Lobeda crafts a compelling case for a new moral economy its vital importance the pivotal role religious networks can play and the varied forms of action needed Building a Moral Economy Pathways for People of Courage is grounded in the stories of real people with real struggles triumphs and creative energy Moe Lobeda invites readers to imagine an equitable ecological and democratic economy for themselves and their descendants and provides wise guidance for living into that vision Readers will re see economies as webs of relationship and will root economic life in the great love story the story of God's astounding love for all creation and God's call to align our lives with that love Readers will encounter

the work of economic transformation as a sacred journey a journey of healing diseased relationships with Earth with self with neighbors far and near and with the Sacred Source whom many call God Moe Lobeda conveys this as a journey of freedom to live as beings in community human community planetary community and community with God Moe Lobeda's accessible prose explicitly faces the paradox of enormous moral challenges such as climate change held together with infinite hope Welcoming readers into the vibrant global movement to build life giving forms of economic life she seeks to develop a sense of empowered agency Are we the disinterested individuals motivated by material self interest that neoclassical economics declared us to be or are humans called to think with others past present and future seeking communion with all creation Moe Lobeda argues that our lives and Earth's well being depend on choosing the latter path The work is urgent the time to embark on these pathways of restorative justice is now The Political Economy of Sports Television William M.

Kunz,2020-04-23 Drawing from theories of the political economy of communication this book offers readers a comprehensive data rich assessment of contemporary sports television and its evolution Providing an in depth look at the ownership and regulation of sports television in the United States William M Kunz analyzes a range of platforms networks and sports with particular focus on the way ownership has become concentrated in five conglomerates AT T CBS Comcast Disney and Fox The end result of years of media consolidation is that broadcast networks are now married to cable and streaming services under a single conglomerate which has implications for the cost of contracts and the negotiation of distribution deals Examining multiple platforms networks and sports in an all inclusive manner this volume documents the evolution and current state of affairs of sports television With historic and current data on rights fees for sports television leagues and events as well as carriage fees and subscription levels for sports related cable and satellite services this comparative study offers critical information for students and scholars conducting research on sports television Mapping Power Navroz K.

Dubash,2018-08-22 Electricity is critical to enabling India's economic growth and providing a better future for its citizens In spite of several decades of reform the Indian electricity sector is unable to provide high quality and affordable electricity for all and grapples with the challenge of poor financial and operational performance To understand why Mapping Power provides the most comprehensive analysis of the political economy of electricity in India's states With chapters on fifteen states by scholars of state politics and electricity this volume maps the political and economic forces that constrain and shape decisions in electricity distribution Contrary to conventional wisdom it concludes that attempts to depoliticize the sector are misplaced and could worsen outcomes Instead it suggests that a historically grounded political economy analysis helps understand the past and devise reforms to simultaneously improve sectoral outcomes and generate political rewards These arguments have implications for the challenges facing India's electricity future including providing electricity to all implementing government reform schemes and successfully managing the rise of renewable energy *Minerals Yearbook*

,2010 **The Achievement Gap** Michele Wages,2018-09-30 The achievement gap is one of the most talked about issues in

U S education It shows up in grades standardized test scores course selection dropout rates and college completion This book argues that the focus on the gap is misplaced Today we need to look at the societal factors that have accumulated over time and have resulted in poverty level pay for teachers lack of resources in our poorest schools and an abundance of children entering our schools unprepared Dr Wages has written a detailed well documented book that can serve as an informative resource to create an awareness of the multidimensional and complex issues of poverty Border Security, 2015 United States. Congress. Senate. Committee on Homeland Security and Governmental Affairs,2016 Law Mart Riaz Tejani,2017-07-18 American law schools are in deep crisis Enrollment is down student loan debt is up and the profession's supply of high paying jobs is shrinking Meanwhile thousands of graduates remain underemployed while the legal needs of low income communities go substantially unmet Many blame overregulation and seek a free market to solve the problem but this has already been tested Seizing on a deregulatory policy shift at the American Bar Association private equity financiers established the first for profit law schools in the early 2000s with the stated mission to increase access to justice by serving the underserved Pursuing this mission at a feverish rate of growth they offered the promise of professional upward mobility through high tech simplified teaching and learning In Law Mart a vivid ethnography of one such environment Riaz Tejani argues that the rise of for profit law schools shows the limits of a market based solution to American access to justice Building on theories in law political economy and moral anthropology Tejani reveals how for profit law schools marketed themselves directly to ethnoracial and socioeconomic minority communities relaxed admission standards increased diversity shook up established curricula and saw student success rates plummet They contributed to a dramatic rise in U S law student debt burdens while charging premium tuition financed up front through federal loans over time If economic theories have so influenced legal scholarship what happens when they come to shape law school transactions governance and oversight For students promised professional citizenship by these institutions is there a need for protections that better uphold institutional quality and sustainability Offering an unprecedented glimpse of this landscape Law Mart is a colorful foray into these essential questions **The Budget of the United States Government** United States.
