**International Handbook of Mathematical Learning Difficulties** Annemarie Fritz,Vitor Geraldi Haase,Pekka Räsänen,2019-01-30 This comprehensive volume provides teachers researchers and education professionals with cutting edge knowledge developed in the last decades by the educational behavioural and neurosciences integrating cognitive developmental and socioeconomic approaches to deal with the problems children face in learning mathematics The neurocognitive mechanisms and the cognitive processes underlying acquisition of arithmetic abilities and their significance for education have been the subject of intense research in the last few decades but the most part of this research has been conducted in non applied settings and there s still a deep discrepancy between the level of scientific knowledge and its implementation into actual educational settings Now it s time to bring the results from the laboratory to the classroom Apart from bringing the theoretical discussions to educational settings the volume presents a wide range of methods for early detection of children with risks in mathematics learning and strategies to develop effective interventions based on innovative cognitive test instruments It also provides insights to translate research knowledge into public policies in order to address socioeconomic issues And it does so from an international perspective dedicating a whole section to the cultural diversity of mathematics learning difficulties in different parts of the world All of this makes the International Handbook of Mathematical Learning Difficulties an essential tool for those involved in the daily struggle to prepare the future generations to succeed in the global knowledge society

**Implementing Deeper Learning and 21st Century Education Reforms** Fernando M. Reimers,2020-11-04 This open access book is a comparative analysis of recent large scale education reforms that broadened curriculum goals to better prepare students for the 21st century The book examines what governments actually do when they broaden curriculum goals with attention to the details of implementation To this end the book examines system level reforms in six countries at various levels of development The study includes system level reforms in jurisdictions where students achieve high levels in international assessments of basic literacies such as Singapore and Ontario Canada as well as in nations where students achieve much lower levels such as Kenya Mexico Punjab Pakistan and Zimbabwe The chapters examine system level reforms that focus on strengthening the capacity to teach the basics as in Ontario and Pakistan as well as reforms that aim at building the capacity to teach a much broader set of competencies and skills such as Kenya Mexico Singapore and Zimbabwe The volume includes systems at very different levels of spending per student and reforms at various points in the cycle of policy implementation some just starting some struggling to survive a governmental transition and others that have been in place for an extended period of time From the comparative study of these reforms we aim to provide an understanding of how to

build the capacity of education systems to teach 21st century skills at scale in diverse settings New Leaders, New Dawns? Chris Brown, David Moore, Blair Rutherford, 2022-06-17 In late 2017 and early 2018 South Africa and Zimbabwe both experienced rapid and unexpected political transitions In Zimbabwe Robert Mugabe the only leader the country had ever known was replaced in a soft coup by his erstwhile vice president Emmerson Mnangagwa Over a twelve day period in February 2018 South African president Jacob Zuma was prematurely forced from office by his former deputy president Cyril Ramaphosa The widespread popular rejoicing that accompanied their arrival compounded the shock of these sudden transitions New Leaders New Dawns explores these political transitions and the way they were received Contributors consider how the former liberation heroes Mugabe and Zuma could have fallen so low the underlying reasons for their ouster what happened to their liberation movements turned ruling parties and perhaps most importantly what the rise to power of Ramaphosa and Mnangagwa foreshadowed Bringing together fourteen leading international scholars of southern Africa and adopting a political economy framework this volume argues that the changes in leadership are welcome but insufficient While the time had come for Zuma and Mugabe to go there is little in the personal histories or early policy actions of Ramaphosa and Mnangagwa that suggests they will be capable of addressing the profound social economic and political problems both countries face New Leaders New Dawns reveals that despite what these new leaders may have promised a new dawn has not yet arrived in southern Africa Tourism, Philanthropy and School Tours in Zimbabwe Kathleen Smithers, 2024-08-05 This book explores the phenomena of school tours and tourism It explores tensions of authenticity and artificiality in the school site being both a place of community learning and a spectacle for tourism consumption Through the example of a school in Matabeleland North Zimbabwe the book examines the act of a school tour whose main aim is to providing fund for the school It offers a unique interdisciplinary lens that examines both the school as a tourism destination and as a site of learning By drawing on these two fields the book provides insights into the tensions inherent in a school that is also a tourism destination This book will demonstrate to readers the tensions present in tourism partnerships with schools that include some source of philanthropic funding and unpack the complexities of tourism that draws on stereotypical cultural images It explores these tensions through the lens of school leaders students teachers and tourism personnel The book provides a major and unique contribution to the field of tourism studies and education It will be of interest to students and researchers interested in tourism studies sociology education philanthropy development studies and the Global South

Matamanda, Verna Nel, Innocent Chirisa, 2021-05-07 This interdisciplinary book provides a cross sectoral and multi dimensional exploration and assessment of the urban geography perspectives in Zimbabwe Drawing on work from different disciplines the book not only contributes to academia but also seeks to inform urban policy with the view of contributing to the national aspirations of Zimbabwe attaining middle income status by 2030 Adopting a multi dimensional assessment that transcends disciplines such as urban and regional planning human and physical geography urban governance political science economics and development studies the book provides a background for co production concerning urban development in the Global South The book contributes into its analysis of the institutional and legislative framework that relates to the urban geography of Zimbabwe as these are responsible for the evolution of the urban system in the country The connections among different sectors and issues such as environment economy politics and the wider objectives of the SDGs especially goal 11 aspiring to create sustainable communities by 2030 are explored The success stories relating to urban geography in Zimbabwe are identified together with the best possible practices that may inform urban planning policy and management

Recommendations and guidance on hepatitis C virus self-testing World Health Organization, 2021-07-15 WHO has set a global goal to eliminate HCV as a public health problem by 2030 WHO estimates that 58 million people had chronic hepatitis C virus HCV infection globally in 2019 and less than a quarter of them were diagnosed New and innovative approaches are needed to accelerate progress toward the HCV elimination targets Self testing is one such approach These guidelines provide a new recommendation and guidance on HCV self testing to complement existing HCV testing services in countries These guidelines also highlight operational considerations to support strategic implementation and scale up of HCV self testing

**Civil Society and the Party-state in Zimbabwe** Zenzo Moyo, 2024-08-21 The book utilises Gramsci s concepts of hegemony counter hegemony organic intellectuals and integral state to interrogate how modes of engagement between the

state and civil society have contributed to a polarised polity in Zimbabwe and in turn how this has impacted democratisation processes This was achieved by analysing intra civil society interactions and state civil society relations which established deep polarised relationships that can be traced back to the liberation struggle It also interrogates ideologies that drive these polarised relations and how together with material benefits from donors and the party state these relations impact ordinary people s modes of existence One of the arguments that emerge from the book is that political polarisation in Zimbabwe has now morphed into an established political culture that has played a huge role in the retardation of democratic struggles It uses ideas of entangled modernities and travelling theory to cast doubt on the belief that civil society is the missing key in the democratisation of developing countries **The World Factbook** ,2016 *Education Matters* Robert J.

Barro,Jong-Wha Lee,2015-06-09 Education has significant and far reaching effects not only on individuals but also on the societies in which they live and to which they contribute The education level of a population affects how a country supports itself and others and the degree to which it can participate in the global field While everyone from politicians to policymakers to celebrities has stressed the importance of education there has not been until now a vigorous yet comprehensible examination of data to support what has long been common knowledge education matters In *Education Matters* Global Gains from the 19th to the 21st Century renowned economists Robert Barro and Jong Wha Lee present a revolutionary new data set on education in 146 countries since 1870 and projected through 2040 With case studies from the United States China and Korea Barro and Lee evaluate schooling both quantitatively and qualitatively and assess the role of education in economic and political development In this comprehensive study the authors establish the critical role that education plays particularly for women and girls in economic growth fertility and democracy The book also addresses sensitive and controversial topics such as international disparities in education and the role of education in modernization and development Both challenging and enlightening *Education Matters* has exciting implications for the future of education and promises to be a ground breaking work in the fields of economics and educational attainment Engaging and informative *Education Matters* is a compelling read for students scholars and anyone with a passion for education ZUNDAF 2016-2020 ,2015 **Handbook**
