**British Military Service Tribunals, 1916-18**

James McDermott, 2013-07-19 Military Service Tribunals were formed following the introduction of conscription in January 1916 to consider applications for exemption from military service. Swiftly they gained two opposing yet equally unflattering reputations. In the eyes of the military they were soft obstructionist old duffers. To most of the men who came before them they were the unfeeling civilian arm of a remorseless grinding machine. This work utilising a rare surviving set of Tribunal records challenges both perspectives. Wielding unprecedented power yet acutely sensitive to the contradictions inherent in their task the Tribunals were obliged often at a conveyor belt's pace to make decisions that often determined the fate of men. That some of these decisions were capricious or even wrong is indisputable; the sparse historiography of the Tribunals has too often focused upon the idiosyncratic example while ignoring the wider impact of imprecise legislation, government hand washing and short term military exigencies.

**The Family Jewels** John Prados, 2013-09-15 In December 1974 a front page story in the New York Times revealed the explosive details of illegal domestic spying by the Central Intelligence Agency. This included political surveillance, eavesdropping, detention and interrogation. The revelation of illegal activities over many years shocked the American public and led to investigations of the CIA by a presidential commission and committees in both houses of Congress which found evidence of more abuse even CIA plans for assassinations. Investigators and the public soon discovered that the CIA abuses were described in a top secret document, agency insiders dubbed the Family Jewels. That document became ground zero for a political firestorm that lasted more than a year. The Family Jewels debacle ultimately brought about greater congressional oversight of the CIA but excesses such as those uncovered in the 1970s continue to come to light. The Family Jewels probes the deepest secrets of the CIA and its attempts to avoid scrutiny. John Prados recounts the secret operations that constituted Jewels and investigators' pursuit of the truth plus the strenuous efforts by the agency, the executive branch and even presidents to evade accountability. Prados reveals how Vice President Richard Cheney played a leading role in intelligence abuses and demonstrates that every type of Jewel has been replicated since, especially during the post 9/11 war on terror. The Family Jewels masterfully illuminates why these abuses are endemic to spying, shows that proper relationships are vital to control of intelligence and advocates a system for handling Family Jewels crises in a democratic society.

Jonathan R. Stromseth, Edmund J. Malesky, Dimitar D. Gueorguiev, 2017-02-27 China is widely viewed as a global powerhouse that has achieved a remarkable economic transformation with little political change Less well known is that China's leaders have also implemented far reaching governance reforms designed to promote government transparency and increase public participation in official policymaking What are the motivations behind these reforms and more importantly what impact are they having This puzzle lies at the heart of Chinese politics and could dictate China's political trajectory for years to come This extensive collaborative study not only documents the origins and scope of these reforms across China but offers the first systematic assessment by quantitatively and qualitatively analyzing the impact of participation and transparency on important governance outcomes Comparing across provinces and over time the authors argue that the reforms are resulting in lower corruption and enhanced legal compliance but these outcomes also depend on a broader societal ecosystem that includes an active media and robust civil society
