Understanding Religious Violence J.P. Larsson, 2017-07-05 There is a long standing fear of that which is not understood Since September 11 2001 the fear surrounding the violent elements of religion has led to heightened tensions Research is thus essential to counteract the effects of religious xenophobia In this compelling book J P Larsson investigates religious violence terrorism and armed conflict in order to deliver the understanding required for a more peaceful world and to allow for a framework of conflict transformation This multi disciplinary text will greatly interest those in the fields of international relations theology and sociology

Religion, Narcissism and Fanaticism Tamas Pataki, 2024-04-25 Religion Narcissism and Fanaticism traces the historical and psychosocial development of religiosity and applies anthropological and psychoanalytic perspectives to the understanding of religions particularly their fanatical and fundamentalist expressions Religious ideology practices and institutions satisfy many human needs including those arising from our hysterical obsessional and narcissistic dispositions the need to segregate the good and bad aspects of our personalities to belong to an idealized group and to feel secure and special by identifying with or living in the orbit of a supposedly omnipotent figure But these needs and their modes of satisfaction are distorted by religions which may then nurture and accommodate malign characteristics especially in the case of the monotheisms narcissistic inflation or grandiosity The book shows how interactions between religious ideology and personal development become intricately intertwined in the narcissistic pathology which underlies much of the violence and religious aggression in the world today It presents both a new account of the historical and psychosocial development of religiosity and a powerful polemic against the religions which delusorily satisfy some of the very needs they create The book will appeal to psychoanalysts anthropologists philosophers sociologists and all those interested in the place of religion in the modern world

Philosophy of Religion Hubert J. Richards, 2000 This second edition of Philosophy of Religion expands upon the issues raised in the first edition It has been revised to meet the content requirements of the philosophy modules of the new AS and A level specifications for religious studies

There Is Life After Death Roy Abraham Varghese, 2009-11-01 Is death the end Or to put it another way do we survive bodily death Some shrug their shoulders and declare we simply can't know Others just say No And a few flying their philosophical colors pretentiously profess to not even understand the question Curiously the overwhelming majority of human beings throughout the course of history have taken it for granted that death is not the end that there is a life after death This striking and seemingly instinctive belief has been embodied in the religious traditions and philosophical reflections of most cultures There is Life After Death is the first of its kind in that it assembles and analyzes a comprehensive range of data on life after death and then provides a framework to understand the data No previous book has given a concrete structure of the afterlife that is based on the accounts of eye witnesses as well as on data from diverse sources Above all the book provides exciting and compelling

answers to the urgent question what lies on the other side **Religion Without Boundaries** Shawn Paul,2022-02-28 All major organized religions are confined to rules and regulations promulgated since ancient times but with the passage of time those writings became outdated in contemporary society Even so religious rules and regulations remained fixed As a result spirituality emerged as a driving force that goes beyond the boundaries of traditional religion In this book the author examines how religions have been stifled by their inability to adapt to recent times He asserts that religion is based on myths folklore and supernatural miracles Spirituality however is more about an inner quest Spirituality emphasizes compassion patience harmony and concern for others Humanity is the active part of spirituality when one s compassion toward others translates into a kind concern to do well To enhance and enrich human life the author highlights the need to fight hunger and poverty to establish peace and to protect the environment and natural resources Discover practical aspects of spirituality and humanity that will help us achieve a more meaningful existence with the powerful insights in Religion without Boundaries

Bridges between Cultures Tomasz Kalaga,2018-10-30 Centred on the metaphor of bridges and knots this volume investigates the dialogic and dialectical relationships between socially dissimilar and topographically distant cultures The contributions here explore various methodological frameworks for discourses and theories that purport to conceptualize cultural spaces which as opposed to objective geographical areas are characterized by the propensity to bind topographical distances by means of symbolic ties and perimeters The chapters address possible juxtapositions and intersections of spatial and temporal dimensions of cultural practice religious and ethical ties and knots between lands and cultures disconnections between historical literary and cultural epochs discourses of cultural entanglement and cultural ensnarement on individual and social levels and the possibilities of raising aesthetic bridges between various cultures in music poetry and visual arts among other topics *The Dying Soul* Mark Cobb,2001-01-16 Holistic models of cancer and palliative care frequently refer to spirituality as an important element But what do we mean when we talk about spirituality and how do we provide spiritual care This book sets out an understanding of this complex domain describing how spirituality is experienced and expressed and looks at the impact of terminal illness The author argues that if we are to recognize spirituality as a significant aspect of living and dying then care providers must develop an interesting consistent and effective approach Therefore issues of training policy and practice all need to be addressed Spirituality is often represented as the fourth pillar of palliative care and yet it is often the least developed area in terms of both theory and practice Originating from the author s clinical and teaching experience this book aims to explore the concepts issues and practical implications of spirituality in care **The Crisis of Colonial Anglicanism** Martyn Percy,2025-01-23 This book offers a bold and unsettling truth the British Empire and Great Britain are primarily English constructions and the Church of England benefited from English enterprise and exploitation serving as the spiritual arm of the imperial project English Anglicanism has cast itself as the lead character in its own serious fiction the main religious player in a drama of Church and Empire Yet in collusion with colonialism it is now

trapped by historical amnesia Martyn Percy examines the English interests concealed in appeals to Britishness showing how slavery exploitation classism and racism upheld elitist and hierarchical worldviews that bolstered both Empire and Church By viewing the rest of the world as lesser both institutions have declined in global standing now reduced to minor national players on the world stage Religious social and political imperialism thrived on deprecating others but those once marginalised have fought for equality and independence Today the worldwide Anglican Communion faces a new era of moral reckoning

Wish-fulfilment in Philosophy and Psychoanalysis Tamas Pataki, 2014-04-24 Wish fulfilment as a singular means of satisfying ineluctable desire is a pivotal concept in classical psychoanalysis Freud argued that it was the thread that united dreams daydreams phantasy omnipotent thinking neurotic and some psychotic symptoms such as hallucinations and delusions art myth and religious illusions The concept's theoretical exploration has been largely neglected within psychoanalysis since but contemporary philosophers have recognised it as providing an explanatory model for much of the kind of irrational behaviour so problematic for psychiatry social psychology and the philosophy of mind Although critically neglected in contemporary psychological and psychoanalytic thought the concept remains clinically fundamental under different labels it encompasses the processes of omnipotent phantasy symbolic or substitutive satisfaction actualisation in transference and acting out symptom formation and defenses such as projective identification Wish fulfilment can be shown to be a specifically psychoanalytic compartment of a common sense psychological theory of action that illuminates not just clinical material but also the paradoxes of irrationality such as weakness of will and self deception that preoccupy philosophers The first half of this book develops a comprehensive and novel theory of wish fulfilment explores its radical implications for the structure of mind and locates it against the backdrop of both contemporary psychoanalytic and philosophical thought In the second half the book applies the theory to illuminate important features of self deception and delusion religion insanity defences creative writing and the exclusion of mind and intention in the biological drift of modern psychiatry The book will be essential to philosophers of mind psychoanalysts psychiatrists psychologists social theorists and students in these disciplines as well as readers interested in understanding how the mind works in mental illness self deception religion and creative writing

Year Book Illinois Farmers' Institute. Dept. of Household Science, 1926 **Black Muslim Religion in the Nation of Islam, 1960-1975** Edward E. Curtis IV, 2009-01-05 Elijah Muhammad's Nation of Islam came to America's attention in the 1960s and 1970s as a radical separatist African American social and political group But the movement was also a religious one Edward E Curtis IV offers the first comprehensive examination of the rituals ethics theologies and religious narratives of the Nation of Islam showing how the movement combined elements of Afro Eurasian Islamic traditions with African American traditions to create a new form of Islamic faith Considering everything from bean pies to religious cartoons clothing styles to prayer rituals Curtis explains how the practice of Islam in the movement included the disciplining and purifying of the black body the reorientation of African American historical consciousness toward the

Muslim world an engagement with both mainstream Islamic texts and the prophecies of Elijah Muhammad and the development of a holistic approach to political religious and social liberation Curtis s analysis pushes beyond essentialist ideas about what it means to be Muslim and offers a view of the importance of local processes in identity formation and the appropriation of Islamic traditions Unitarian Review and Religious Magazine Charles Lowe, Henry Wilder Foote, John Hopkins Morison, Henry H. Barber, James De Normandie, Joseph Henry Allen, 1884 Communicating Faith John Sullivan, 2011 This book enriches appreciation of the many ways that Christian faith is communicated It casts light on the sensitivities skills and qualities necessary for the effective communication of faith where justice is done both to the seed to be sown and to the soil being cultivated **History of Science and Philosophy of Science** Pradip Kumar Sengupta, 2010

The Gospel and the Mind Bradley G. Green, 2010-11-03 History demonstrates that wherever the cross is planted the academy follows But history alone cannot demonstrate why this is and must be the case Green engages theology and philosophy to prove that the Christian vision of God mankind and the world provides the necessary precondition for and enduring foundation of meaningful intellectual life The Gospel and the Mind deeply rooted in Augustinian and Reformed thought shows that core principles of the West s Christian inheritance such as creation and the importance of history the centrality of a telos to all things and the logos and the value of words form the matrix of any promising and sustainable intellectual life More than a lament of the state of the evangelical mind or even an argument for the primacy of a Christian worldview The Gospel and the Mind is a paradigm shifting declaration that the life of the mind starts at the cross
