Horizons Canada Moves West Chapter 6 Review:

Interdependence HyeRan Kim-Cragg, 2018-05-31 This book calls attention to an urgent need for postcolonial feminist approaches to practical theology. It not only advocates for the inclusion of colonialism as a critical optic for practical theology but also demands a close look at how colonialism is entangled with issues of race, ethnicity, gender, class, disability, and sexual orientation. Seeking to highlight the importance of the interdependence of life, the author challenges and contests the notion of independence as the desirable goal of the human being. Lifting up the experiences of overlooked groups including children at adult centered worship, queer and interracial youth in heterosexual and white normative family discourse, and non-human species in human centered academic and theological realms, the book contributes to expanding the concerns of practical theology in ways that create healthy community for all human beings and non-human fellow creatures. It also takes up issues of multiple religious belonging and migration that practical theology has not sufficiently explored. These illuminating new possibilities promise to renew and even transform church communities through the inclusion of often neglected groups with whom God is already present.

The Precariat in Western China Xueyang Ma, 2024-06-17 This book provides a comprehensive picture for understanding the experiences and dynamics of precarious workers in work poverty in western China. The research presented in this book identifies the causes and the consequences of precarious employment and in work poverty and analyses the stakeholders' responses to the changes in the context of employment in China's socialist market economy. The book explains why precarious workers tend to remain outsiders to rapid socio-economic transformation and informs readers as to how people make choices, how those with different abilities adapt to the process of de-traditionalisation, and how marketisation changes people's lifestyles, value systems, policy designs. Detailing empirical investigations of the experience and dynamics of workers' precarious life, this book will appeal to students and scholars of Chinese society, social policy, and poverty.

This book introduces readers to the cultural imaginings of borders, the in-between spaces in which transnationalism collides with geopolitical cooperation and contestation. Recent debates about the refugee crisis and the spread of the COVID-19 pandemic have politicized culture at and of borders like never before. Border culture is no longer culture at the margins but rather culture at the heart of geopolitics, flows, and experience of the transnational world. Increasingly, culture and borders are everywhere yet nowhere. In border spaces, national narratives and counter narratives are tested and evaluated, coming up against transnational culture. This book provides an extensive and critical vision of

border culture on the move drawing on numerous examples worldwide and a growing international literature across border and cultural studies It shows how border culture develops in the human imagination and manifests in human constructs of nation and state as well as in transnationalism By analyzing this new and expanding cultural geography of border landscapes the book shows the way to a fresh broader dialogue Exploring the nature and meaning of the intersection of border and culture this book will be an essential read for students and researchers across border studies geopolitics geography and cultural studies
