Husserl's Ideen Contributions To Phenomenology:

Husserl's Ideen Lester Embree, Thomas Nenon, 2012-11-05 This collection of more than two dozen essays by philosophy scholars of international repute traces the profound impact exerted by Husserl's Meisterwerk known in its shortened title as Ideen whose first book was released in 1913 Published to coincide with the centenary of its original appearance and fifty years after the second book went to print in 1952 the contributors offer a comprehensive array of perspectives on the ways in which Husserl's concept of phenomenology influenced leading figures and movements of the last century including among others Ortega y Gasset Edith Stein Martin Heidegger Aron Gurwitsch Ludwig Landgrebe Dorion Cairns Simone de Beauvoir Jean Paul Sartre Maurice Merleau Ponty Jacques Derrida and Giles Deleuze In addition to its documentation and analysis of the historical reception of these works this volume also illustrates the ongoing relevance of the Ideen offering scholarly discussion of the issues raised by his ideas as well as by the figures who took part in critical phenomenological dialogue with them Among the topics discussed are autism empathy the nature of the emotions the method and practice of phenomenology the foundations of ethics naturalism intentionality and human rights to name but a few Taken together these specially commissioned original essays offer an unrivaled overview of the reception of Husserl's Ideen and the expanding phenomenological enterprise it initiated They show that the critical discussion of issues by phenomenologists continues to be relevant for the 21st century

Issues in Husserl's Ideas II Thomas Nenon, Lester Embree, 2013-03-14 This volume is chiefly composed of revised

versions of essays presented and discussed at the research symposium of the same title held in Delray Beach Florida on May 7 9 1993 The symposium was conducted under the sponsorship of the William F Dietrich Eminent Scholar Chair in Philosophy at Florida Atlantic University and the Center for Advanced Research in Phenomenology Inc Several essays have been added including the Husserl ineditum and its translation The intention of the project was to attract even wider appreciation for this posthumous work by Husserl especially since it has now been first translated into English by Andre Schuwer and Richard Rojcewicz In manuscript form the Ideas II was known to Martin Heidegger and Maurice Merleau Ponty before Sein und Zeit 1927 and Phenomenologie de la perception 1945 as well to Edith Stein and Ludwig Landgrebe of course who worked on it as Husserl s assistants It was published in 1952 as Volume IV of the Husserliana series and critical studies of that volume were written by Paul Ricoeur and Alfred Schutz Now that there is an English translation it is increasingly being taught in the United States along with the Ideas I *Teaching Women Philosophers* Ruth Edith

Hagengruber, 2024-08-30 This book expands the known canon by presenting arguments and concepts from women philosophers from all periods of the history of philosophy from antiquity to the present day The collaborative collection is an undertaking that emerged from intensive discussions on how to expand the philosophical canon which formed the conclusion of the Libori Summer School 2019 This Libori Summer School the third in a row was held to enhance the study of texts written by women philosophers from Antiquity up to now and intended to give opportunity to young scholars to connect and to build networks Presenting such a collection is even more urgent today because a diversification of the canon has long been called for Nevertheless to date there is little explicit material available for this purpose To make this book suitable for both academics and students it is structured in such a way that readers can use excerpts and individual chapters from it that suit their needs be it in moral philosophy politics or phenomenology etc Containing chapters on women such as Suor Juana Emilie Du Ch telet and Nisia Floresta and supplemented by contextualization namely by some brief biographical information and by the systematic integration of her argument into the debates of the respective periods this book is an important resource highlighting the achievements and value of women in philosophy and calling for a further diversification of the canon The Idealism-Realism Debate Among Edmund Husserl's Early Followers and Critics Rodney K. B. Parker, 2021-08-26 This volume aims to contextualize the development and reception of Husserl s transcendental phenomenological idealism by placing him in dialogue with his most important interlocutors his mentors peers and students Husserl s turn to idealism and the ensuing reaction to Ideas I resulted in a schism between the early members of the phenomenological movement The division between the realist and the transcendental phenomenologists is often portrayed as a sharp one with the realists naively and dogmatically rejecting all of Husserl s written work after the Logical Investigations However this understanding of the trajectory of the phenomenological movement ignores the extensive and intricate contours of the idealism realism debate In addition to helping us better interpret Husserl s attempts to defend his idealism reconsidering the idealism realism debate

elucidates the relationship and differences between Husserl's phenomenology and the broader landscape of early 20th century German philosophy particularly the Munich phenomenologists and the Neo Kantians The contributions to this volume reconsider many of the early interpretations and critiques of Husserl inviting readers to assess the merits of the arguments put forward by his critics while also shedding new light on their so called misunderstandings of his idealism This text should be of interest to researchers working in the history of phenomenology and Husserlian studies **The Sources of Husserl's**

'Ideas I' Andrea Staiti,Evan Clarke,2018-05-07 Despite an ever growing scholarly interest in the work of Edmund Husserl and in the history of the phenomenological movement much of the contemporaneous scholarly context surrounding Husserl's work remains shrouded in darkness While much has been written about the critiques of Husserl's work associated with Heidegger Levinas and Sartre comparatively little is known of the debates that Husserl was directly involved in The present volume addresses this gap in scholarship by presenting a comprehensive selection of contemporaneous responses to Husserl's work Ranging in date from 1906 to 1917 these texts bookend Husserl's landmark *Ideas for a Pure Phenomenology and Phenomenological Philosophy* 1913 The selection encompasses essays that Husserl responded to directly in the *Ideas I* as well as a number of the critical and sympathetic essays that appeared in the wake of its publication Significantly the present volume also includes Husserl's subsequent responses to his critics All of the texts included have been translated into English for the first time introducing the reader to a wide range of long neglected material that is highly relevant to contemporary debates regarding the meaning and possibility of phenomenology **Cartesian Philosophy and the Flesh** Frances

Gray,2013 Cartesian Philosophy and the Flesh is an analysis and critique of interpretations of Cartesian philosophy in analytical psychology Brill's Companion to Camus ,2020-01-13 This book is the first English language collection of essays by leading Camus scholars from around the world to focus on Albert Camus place and status as a philosopher amongst philosophers After a thematic introduction the dedicated chapters of Part 1 address Camus relations with leading philosophers from the ancient Greeks to Jean Paul Sartre Augustine Hume Kant Diderot Nietzsche Kierkegaard Husserl Hegel Marx Sartre Part 2 contains pieces considering philosophical themes in Camus works from the absurd in *The Myth of Sisyphus* to love in *The First Man* the absurd psychoanalysis justice Algeria solidarity and solitude revolution and revolt art asceticism love *The Husserlian Mind* Hanne Jacobs,2021-07-20 Edmund Husserl 1859 1938 is widely regarded as the

principal founder of phenomenology one of the most important movements in twentieth century philosophy His work inspired subsequent figures such as Martin Heidegger his most renowned pupil as well as Jean Paul Sartre and Maurice Merleau Ponty all of whom engaged with and developed his insights in significant ways His work on fundamental problems such as intentionality consciousness and subjectivity continues to animate philosophical research and argument *The Husserlian Mind* is an outstanding reference source to the full range of Husserl's philosophy Forty chapters by a team of international contributors are divided into seven clear parts covering the following areas major works phenomenological method

Edith Stein: Philosophical Encounters and Divides Antonio Calcagno, Ronny Miron, 2022-11-03 This book focuses on the

debated insights and ideas about the nature of the soul phenomenology personhood and individuality animal life nature being
