

The background is an abstract composition of warm, textured colors. On the left, there's a vertical band of deep orange and red. To the right, a larger area of yellow and gold is visible, with a distinct green and blue shape that resembles a bird in flight or a splash of paint. The overall effect is layered and painterly.

Dreaming Souls Owen Flanagan, 2001-05-17 What if anything do dreams tell us about ourselves What is the relationship between types of sleep and types of dreams Does dreaming serve any purpose Or are dreams simply meaningless mental noise unmusical fingers wandering over the piano keys With expertise in philosophy psychology and neuroscience Owen Flanagan is uniquely qualified to answer these questions And in *Dreaming Souls* he provides both an accessible survey of the latest research on sleep and dreams and a compelling new theory about the nature and function of dreaming Flanagan argues that while sleep has a clear biological function and adaptive value dreams are merely side effects free riders irrelevant from an evolutionary point of view But dreams are hardly unimportant Indeed Flanagan argues that dreams are self expressive the result of our need to find or to create meaning even when we re

sleeping Rejecting Freud's theory of manifest and latent content of repressed wishes appearing in disguised form Flanagan shows how brainstem activity during sleep generates a jumbled profusion of memories images thoughts emotions and desires which the cerebral cortex then attempts to shape into a more or less coherent story Such dream narratives range from the relatively mundane worries of non REM sleep to the fantastic confabulations of deep REM that resemble psychotic episodes in their strangeness But however bizarre these narratives may be they can shed light on our mental life our well being and our sense of self Written with clarity lively wit and remarkable insight *Dreaming Souls* offers a fascinating new way of apprehending one of the oldest mysteries of mental life

Sounds of the Borderland Catherine Baker, 2016-04-01 *Sounds of the Borderland* is the first book length study of how popular music became a medium for political communication and contested identification during and after Croatia's war of independence from Yugoslavia It extends existing cultural studies literature on music politics and the state which has largely been grounded in Western European and North American political systems It also responds to an emerging fascination with the culture and politics of contemporary south east Europe expanding scholarship on the post Yugoslav conflicts by going on to encompass significant social and political changes into the present day The outbreak of war in 1991 saw almost every professional musician in Croatia take part in a wave of patriotic music making and the powerful state television system strive to bring popular music under its control As the political imperative shifted from securing national survival to consolidating a homogenous nation state the music industry responded with several strategies for creating a national popular music producing messages about the nation and in the ongoing debates over the origins of the folk music that inspired many songs a way to define the nation by expressing what Croatia was not The war on ethnic ambiguity which cut through individuals social and creative lives played out across the airwaves sales racks and gossip columns of a small country that imagined itself a historical and cultural borderland These explicit and implicit narratives of nationhood connect many political phases the months of fiercest fighting the stabilised front the uneasy post war years when the symbolic frontline region of eastern Slavonia had still not returned to Croatian sovereignty the euphoria and instability after the end of the Tudjman regime in 2000 and Croatia's fraught journey towards the European Union Baker's book provides valuable insight into the role of music in a wartime and post conflict society and will be essential reading for researchers and students interested in south east Europe or the transformation of entertainment during and after conflict

The Romantic Dream Douglas B. Wilson, 1993-01-01 Although criticism on the medieval and Renaissance dream abounds a strange lacuna exists in the critical literature of dream in the English Romantics Every major Romantic poet relied frequently and explicitly on dream imagery and Romantic poems conduct a long discussion about the meaning power value and provenance of dreams Douglas B Wilson's book traces the wide web of connections that the Romantics wove between dreams and other expressions of consciousness sensation emotions illusions creativity personality and memory Situating his study of the Wordsworthian dream between ancient interpretation and Freudian interpretation

Wilson gains a new perspective on the oneiric moment of Romanticism while liberating it from a narrowly psychoanalytic reading Wordsworth embodies virtually all of the dream theory of his time thus making him the perfect object of Wilson's multiple approaches to dream activity as poetic creation Back cover

Invalidism and Identity in Nineteenth-Century Britain Maria H. Frawley, 2010-11-15 Nineteenth century Britain did not invent chronic illness but its social climate allowed hundreds of men and women from intellectuals to factory workers to assume the identity of invalid Whether they suffered from a temporary condition or an incurable disease many wrote about their experiences leaving behind an astonishingly rich and varied record of disability in Victorian Britain Using an array of primary sources Maria Frawley here constructs a cultural history of invalidism She describes the ways that Evangelicalism industrialization and changing patterns of doctor patient relationships all converged to allow a culture of invalidism to flourish and explores what it meant for a person to be designated or to deem oneself an invalid Highlighting how different types of invalids developed distinct rhetorical strategies her absorbing account reveals that contrary to popular belief many of the period's most prominent and prolific invalids were men while many women found invalidism an unexpected opportunity for authority In uncovering the wide range of cultural and social responses to notions of incapacity Frawley sheds light on our own historical moment similarly fraught with equally complicated attitudes toward mental and physical disorder

Fragmentation in Sleep and Mind: Linking Dissociative Symptoms, Sleep, and Memory Sue Llewellyn, Dalena van Heugten - van der Kloet, 2018-03-27 Fragmented dissociated consciousness can characterize the mind in both wake and sleep states Dissociative symptoms during sleep include vivid dreaming nightmares and alterations in objective sleep parameters e g lengthening of REM sleep During waking hours dissociative symptoms exhibit disparate characteristics encompassing memory problems excessive daydreaming absentmindedness and impairments and discontinuities in perceptions of the self identity and the environment Llewellyn has theorized that a progressive and enduring de differentiation of wake and dream states of consciousness eventually results in schizophrenia a lesser degree of de differentiation may have implications for dissociative symptoms Against a background of de differentiation between the dream and wake states the papers in this volume link consciousness memory and mental illness with a special interest for dissociative symptoms

Urban Walking -The Flâneur as an Icon of Metropolitan Culture in Literature and Film Isabel Vila-Cabanes, 2020 The volume assembles fresh treatments on the flâneur in literature film and culture from a variety of angles Its individual contributions cover established as well as previously unnoticed textual and filmic source materials in a historical perspective ranging from the late nineteenth to the early twenty first century The range of topics covered demonstrates the ongoing productivity of flânerie as a viable paradigm for the artistic approach to urban culture and the continuing suitability of flânerie as an analytic category for the scholarly examination of urban representation in the arts This productiveness also extends to the questioning re evaluation and enhancement of flânerie's theoretical foundations as they were laid down by Walter Benjamin and others The work will be particularly relevant for students and scholars of literary studies film studies and gender studies as well as for theoretical approaches to flânerie as an important aspect of urban
