Tar Heels in Gray John B. Cameron,2021-09-22 The 30th North Carolina Infantry was involved in most of the major battles in Virginia from the Seven Days through the surrender at Appomattox and saw some of the bloodiest fighting of the American Civil War Two thirds of these men volunteered early the others were enlisted at the point of a bayonet Their casualty rate was high the rate of death from disease was higher and the desertion and AWOL rate was higher still What was the war actually like for these men What was their economic status To what extent were they involved in the institution of slavery What were their lives like in the Army What did they believe they were fighting for and did those views change over time This book answers those questions and depicts Civil War soldiers as they were rather than as appendages to famous generals or symbols of myth It focuses on the realities of the men themselves not their battles In addition to the author s personal collection of letters and other contemporary records it draws upon newly discovered letters diaries memoirs census records and published works Austria at the International Exhibition of 1862 Jos Arenstein,1862 Geological Survey Professional Paper ,1956 The register of admissions to Gray's Inn, 1521-1889 Joseph Foster,1889-01-01 Implication, Readers' Resources, and Thomas Gray's Pindaric Odes Frederick M. Keener,2012-10-25 Implication Readers Resources and Thomas Gray s Pindaric Odes presents an account of the Poets Secret the quite belated historically recent discovery by

scholars and critics of something many poets have recognized and employed for ages the sense expressed by allusively parallel parts within a text thus expressed intratextually rather than only intertextually Inferential perception of the implicit sense produced logically and linguistically by enthymemes implicatures and other intratextual features as well as intertextual ones can be indispensable for readers comprehension of literary as well as other texts especially their difficult passages Implication Readers Resources and Thomas Gray s Pindaric Odes addresses these elusive matters as they have historically been posed by Thomas Gray s Pindaric odes of 1757 and mainly the first of them The Progress of Poesy a poem that readers have more or less knowledgeably struggled to understand from the outset The process of disclosing that ode s sense can be aided by new further reference to Paradise Lost in the context of Gray s largely unpublished Commonplace Book with its extensive little studied and very pertinent use of Plato and Locke

member or simply knew of him you could not help but be awestruck by his dedication intelligence thoughtfulness work ethic and passion for scientific inquiry especially for conservation of the marine environment Many of his publications were seminal in marine mammal health including infectious environmental and zoonotic diseases As we collected manuscripts for this special Frontiers edition it was heartwarming to hear the comments from contributors So many research scientists field biologists and veterinarians could easily have given up and said I just can't do this now especially with the added challenges posed by the current COVID 19 pandemic Instead contributors from around the world were determined to contribute to this collection because of their inspiration and shared commitment with Greg's vision The love and admiration within the marine community for Greg is phenomenal With that said we would be remiss if we did not say a few words about Greg as a mentor and friend Greg had a knack for helping students realize their abilities and pursue their own independent contributions to the marine mammal community He shared in their successes and worked tirelessly to facilitate their aspirations Greg would involve students early career scientists and colleagues in projects introduce them to collaborators and promote them and their work Greg was a genuinely caring person When he asked you how are you doing he honestly wanted to know He was always there ready to listen and provide guidance If you were to ask Greg what was most important to him in life he would say God family and marine life and one could argue that he had a special fondness for manatees He believed in the beauty of nature and that God had a hand in all of it He was in pursuit of ensuring that we all share this earth responsibly and sustainably We miss Greg dearly but honor and celebrate him as we carry on in our pursuits
