From Things Lost Shirli Gilbert, 2017-05-15 An intimate history of the Holocaust that casts new light on our understanding of victimhood and survival In May 1933 a young man named Rudolf Schwab fled Nazi Germany His departure allegedly came at the insistence of a close friend who later joined the Party Schwab eventually arrived in South Africa one of the few countries left where Jews could seek refuge and years later resumed a relationship in letters with the Nazi who in many ways saved his life From Things Lost Forgotten Letters and the Legacy of the Holocaust is a story of displacement survival and an unlikely friendship in the wake of the Holocaust via an extraordinary collection of letters discovered in a forgotten trunk Only a handful of extended Schwab family members were alive in the war's aftermath Dispersed across five continents their lives mirrored those of countless refugees who landed in the most unlikely places Over years in exile a web of communication became an alternative world for these refugees a place where they could remember what they had lost and rebuild their identities anew Among the cast of characters that historian Shirli Gilbert came to know through the letters one

name that appeared again and again was Karl Kipfer He was someone with whom Rudolf clearly got on exceedingly well there was lots of joking familiarity and sentimental reminiscing That was Grandpa s best friend growing up Rudolf s grandson explained to Gilbert He was a Nazi and was the one who encouraged Rudolf to leave Germany He also later helped him to recover the family s property Gilbert takes readers on a journey through a family s personal history wherein we learn about a cynical Karl who attempts to make amends for his undemocratic past and a version of Rudolf who spends hours aloof at his Johannesburg writing desk dressed in his Sunday finest holding together the fragile threads of his existence The Schwab family s story brings us closer to grasping the complex choices and motivations that even in extreme situations or perhaps because of them make us human In a world of devastation the letters in *From Things Lost* act as a surrogate for the gravestones that did not exist and funerals that were never held Readers of personal accounts of the Holocaust will be swept away by this intimate story

Years of Persecution, Years of Extermination Christian Wiese, Paul Betts, 2010-06-15 This volume provides an in depth discussion of Saul Friedlander s landmark two volume history of the Holocaust Nazi Germany and the Jews It brings together a range of internationally acclaimed historians to address the manifold conceptual and historiographical issues raised in Friedlander s monumental work It includes a major essay by Friedlander himself on the challenges of producing an integrated history of the Holocaust The aim of this book is not simply to evaluate Friedlander s work on its own merits but rather to use his text as a means of exploring the contours and future of Holocaust historiography The central concern is to situate his work within the broader terrain of Holocaust studies and European history as well as to explore the ways in which his book opens up new directions in the knowledge study and understanding of the Shoah in particular and twentieth century genocide in general

Sources for Studying the Holocaust Paul R. Bartrop, 2023-04-14 *Sources for Studying the Holocaust* provides a pathway for readers to engage with questions about what sources can be used to study the Holocaust For many historians the challenge has been how to rescue the story from oblivion when oft-used sources for other periods of history introduce even more issues around authenticity and reliability What can be learned of what transpired in villages and towns numbering several thousand people when all its Jewish inhabitants were totally obliterated through Nazi action Who can furnish eyewitness testimony if all the eyewitnesses were killed How does one examine written records preserving knowledge of facts or events where none were kept or survived the onslaught And what weight do we put upon such resources which did manage to endure the destruction wrought by the Holocaust Each chapter looks at one of a diverse range of source materials from which scholars have rescued the history including survivor testimony diaries letters newspaper accounts photographs trial documents artefacts digital resources memorials films literature and art Each chapter shows how different types of records can be utilised as accurate sources for the writing of Holocaust history Collectively they highlight the ways in which all material even the most fragmentary can be employed to recreate a reliable record of what

happened during the Holocaust and show how all sources considered can be employed to find meaning and understanding by exploring a range of sources deeply This book is a unique analysis of the types of sources that can be used to access the history of Holocaust It will be of invaluable interest to readers students and researchers of the Holocaust Re-examining the Holocaust through Literature Aukje Kluge, Benn E. Williams, 2009-03-26 In the late 1980s Holocaust literature emerged as a provocative but poorly defined scholarly field The essays in this volume reflect the increasingly international and pluridisciplinary nature of this scholarship and the widening of the definition of Holocaust literature to include comic books fiction film and poetry as well as the more traditional diaries memoirs and journals Ten contributors from four countries engage issues of authenticity evangelicalism morality representation personal experience and wish fulfillment in Holocaust literature which have been the subject of controversies in the US Europe and the Middle East Of interest to students and instructors of antisemitism national and comparative literatures theater film history literary criticism religion and Holocaust studies this book also contains an extensive bibliography with references in over twenty languages which seeks to inspire further research in an international context On the Edge of the Holocaust Edna Aizenberg, 2015-11-22 In this bold study Edna Aizenberg offers a much needed corrective to both Latin American literary scholarship and popular assumptions that the whole of Latin America served as a Nazi refuge both during and after World War II Analyzing the treatment of the Shoah by five leading figures in Argentine Brazilian and Chilean writing Alberto Gerchunoff Clarice Lispector Jorge Luis Borges Gabriela Mistral and Joao Guimaraes Rosa Aizenberg illuminates how Latin American intellectuals engaged with the horrific information that reached them regarding the Holocaust including the sympathy and collaboration of their own governments with the Nazis Aizenberg emphasizes how through fiction journalism and activism these five culture makers opposed and fought fascism At the same time her readings of individual texts confront shopworn clichés about Latin American writing and literature suggesting deeper and richer dimensions to many canonical works This interdisciplinary book fills critical gaps in both Holocaust and Latin American studies and will be of great interest to scholars and students in both fields Turkey, the Jews, and the Holocaust Corry Guttstadt, 2013-05-20 This book analyses the minority politics of the Turkish republic and the country's ambivalent policies regarding Jewish refugees and Turkish Jews living abroad The Last Generation of the German Rabbinate Cornelia Wilhelm, 2024 After the Nazi seizure of power on January 30 1933 over 250 German rabbis rabbinical scholars and students for the rabbinate fled to the United States The Last Generation of the German Rabbinate follows their lives and careers over decades in America Although culturally uprooted the group's professional lives and intellectual leadership particularly those of the younger members of this group left a considerable mark intellectually socially and theologically on American Judaism and on American Jewish congregational and organizational life in the postwar world Meticulously researched and representing the only systematic analysis of prosopographical data in a digital humanities database The Last Generation of the German Rabbinate reveals the trials of those who had lost so much and celebrates the

legacy they made for themselves in America **Holocaust Trauma** Natan P.F. Kellermann Ph.D.,2009-08-17 Holocaust Trauma offers a comprehensive overview of the long term psychological effects of Holocaust trauma It covers not only the direct effects on the actual survivors and the transmission effects upon the offspring but also the collective effects upon other affected populations including the Israeli Jewish and the societies in Germany and Austria It also suggests various possible intervention approaches to deal with such long term effects of major trauma upon individuals groups and societies that can be generalized to other similar traumatic events The material presented is based on the clinical experience gathered from hundreds of clients of the National Israeli Center for Psychosocial Support of Holocaust Survivors and the Second Generation AMCHA an Israeli treatment center for this population and from facilitating groups of Austrian German participants in Yad Vashem and Europe as well as an upon an extensive review of the vast literature in the field a long awaited text from one of the most experienced and knowledgeable psychologists in the world The text is groundbreaking in its sensitivity historical grounding insight and scholarship Michael A Grodin M D **The Oxford Handbook of Holocaust Studies** Peter Hayes,John K. Roth,2012-11-22 Few scholarly fields have developed in recent decades as rapidly and vigorously as Holocaust Studies At the start of the twenty first century the persecution and murder perpetrated by the Nazi regime have become the subjects of an enormous literature in multiple academic disciplines and a touchstone of public and intellectual discourse in such diverse fields as politics ethics and religion Forward looking and multi disciplinary this handbook draws on the work of an international team of forty seven outstanding scholars The handbook is thematically divided into five broad sections Part One Enablers concentrates on the broad and necessary contextual conditions for the Holocaust Part Two Protagonists concentrates on the principal persons and groups involved in the Holocaust and attempts to disaggregate the conventional interpretive categories of perpetrator victim and bystander It examines the agency of the Nazi leaders and killers and of those involved in resisting and surviving the assault Part Three Settings concentrates on the particular places sites and physical circumstances where the actions of the Holocaust s protagonists and the forms of persecution were literally grounded Part Four Representations engages complex questions about how the Holocaust can and should be grasped and what meaning or lack of meaning might be attributed to events through historical analysis interpretation of texts artistic creation and criticism and philosophical and religious reflection Part Five Aftereffects explores the Holocaust s impact on politics and ethics education and religion national identities and international relations the prospects for genocide prevention and the defense of human rights *Ethics, Art, and Representations of the Holocaust* Simone Gigliotti,Jacob Golomb,Caroline Steinberg Gould,2013-11-22 The American Jewish philosopher Berel Lang has left an indelible impression on an unusually broad range of fields that few scholars can rival From his earliest innovations in philosophy and meta philosophy to his ground breaking work on representation historical writing and art after Auschwitz he has contributed original and penetrating insights to the philosophical literary and historical debates on ethics art and the representation of

the Nazi Genocide In honor of Berel Lang's five decades of scholarly and philosophical contributions the editors of *Ethics Art and Representations of the Holocaust* invited seventeen eminent scholars from around the world to discuss Lang's impact on their own research and to reflect on how the Nazi genocide continues to resonate in contemporary debates about antisemitism commemoration and poetic representations Resisting what Alvin Rosenfeld warned as the end of the Holocaust the essays in this collection signal the Holocaust as an event without closure of enduring resonance to new generations of scholars of genocide Jewish studies and philosophy Readers will find original and provocative essays on topics as diverse as Nietzsche's reputed Nazi leanings Jewish anti-apartheid activists in South Africa wartime rescue in Poland philosophical responses to the Holocaust hidden diaries in the Kovno Ghetto and analyses of reactions to trauma in classic literary works by Bernhard Schlink Sylvia Plath and Derek Walcott
