Independence Cajetan Iwunze, 2013-02 Since gaining its independence in 1960 Nigeria has never really existed as a unified nation but rather as scattered tribal sects that often fail to coexist with one another peacefully This uneasy alliance has led to civil war in the past and is responsible for the continuing conflict between Muslims and Christians that exists in Nigeria today Because of these deeply embedded political constraints Nigeria has also fallen behind in terms of economic development However Nigeria is not a nation without resources Many of Nigeria's conflicts are centered around oil As it stands currently Nigeria's wealth is concentrated in the hands of the ruling elite and little has been done to improve the situation of the poorest segments of the population But the prolonged and dismal situation in the Nigerian economy that serves as the inspiration behind *The Political Constraints on Nigerian Economic Development Since the Independence* is not without a potential solution Author Cajetan Iwunze intended this book as more than just a statement against the tribal nationalism and the economic bandits that continue to loot the country It also aims to suggest that if there is a solution it lies in reforming the country's institutions so that Nigeria's oil wealth can be used for the benefit of everyone Although he currently lives in the UK Cajetan Iwunze was born in eastern Nigeria Mr Iwunze is an international human rights campaigner writer and teacher who serves as the Director of Professional Tutors Ltd and the CEO of Dyswrite Ltd Publisher's website <http://sbpra.com/CajetanIwunze>

**Global Competition or Convergence?** Jan Hornát, Lukáš Kindl, 2018-02-01 The dynamics of internal changes in China whether these changes impact its national economy or its political order and distribution of power have imminent influence on its relations with the rest of the world The important and perhaps less treated question vis-à-vis China's rise is how and to what extent do internal changes in China affect its external behavior and thus its relations with the current world hegemon the United States In addition this publication asks what the clash of two politically culturally and economically different internal orders of the US and China will mean for their future interactions in the twenty-first century The aim of this publication is not to measure and encompass the entirety of the posed question but rather to provide an incursion into this problem through two specific case studies one focusing on the interactions of two distinct political cultures and the other on the economic geopolitical and ideological interplay of the US and China on the African continent As will be demonstrated incompatible as the two regimes and their respective foreign policies may seem they will not necessarily predestine conflicts in mutual relations As America can well coexist with China even if it does not meet the Western standards of a liberal democracy so does the competition in Africa between these two major powers not have to amount to a zero-sum game At the end of the day both countries might meet halfway in their respective political interactions

*African Policy Innovation and the Political Economy of Public-Private Policy Partnerships* Olayele, Fred,2022-06-30 A core

political economy issue in the growth literature is how to structure the relationship between the public and private sectors to ensure optimal outcomes. While conventional arguments on the ability of the private sector to intrinsically generate efficiency gains remain valid, governments' traditional role of providing an enabling environment to foster private risk taking for capital accumulation is no less important. *African Policy Innovation and the Political Economy of Public Private Policy Partnerships* borrows from contemporary theories of policy change and raises some fundamental questions about the political economy of development in Africa. This book examines the current knowledge and research about the role of public private policy partnerships in the policy innovation discourse. It contributes a comprehensive cutting edge analysis vis vis the appropriateness of contemporary policy devices and paradigms, the compatibility of individualistic analytical frameworks with the African philosophy of Ubuntu, the debate on the rise of neoliberalism versus Africa's traditions and values, and the implications of path dependence for the African Renaissance. From local communities and NGOs to African governments and international development agencies, the author advances a multi stakeholder development policy and programming framework which recognizes Africa's vastly heterogeneous economies and societies. Covering topics such as policy diffusion, demographic shifts, inequality, rentier capitalism, industrial transformation, development finance, innovations, venture capital, ecosystems, tax policy, and supply side economics, ocean finance, the global minimum tax debate, and higher education under disruptive technologies, this premier reference source is an excellent resource for government officials, policymakers, entrepreneurs, business leaders, libraries, students, and educators of higher education, researchers, and academicians.
