January June **The Latino Continuum and the Nineteenth-Century Americas** Carmen E. Lamas, 2021-03-09 The Latino Continuum and the Nineteenth Century Americas argues that the process of recovering Latina o figures and writings in the nineteenth century does not merely create a bridge between the US and Latin American countries peoples and literatures as they are currently understood Instead it reveals their fundamentally interdependent natures politically socially historically and aesthetically thereby recognizing the degree of mutual imbrication of their peoples and literatures of the period Largely archived in Spanish it addresses concerns palpably felt within and integral to the US and beyond English language works also find a place on this continuum and have real implications for the political and cultural life of hispanophone and anglophone communities in the US Moreover the central role of Latina o translations signal the global and the local nature of the continuum For the Latino Continuum embeds layered and complex political and literary contexts and overlooked histories situated as it is at the crossroads of both hemispheric and transatlantic currents of exchange often effaced by the logic of borders national cultural religious linguistic and temporal To recover this continuum of Latinidad which is neither confined to the US or Latin American nation states nor located primarily within them is to recover forgotten histories of the hemisphere and to find new ways of seeing the past as we have understood it The figures of the Félix Varela Miguel Teurbe Tolón Eusebio Guiteras José Martí and Martí de la Morúa Delgado serve as points of departures for this reconceptualization of the intersection between American Latin American Cuban and Latinx studies
