[Enslaved](#) Mirjam Van Reisen, 2023-01-21 Eritrean refugees are being trafficked and enslaved in Libya where they are tortured to force relatives to pay a ransom for their release Labelled with a digital code

they are moved along in the possession of the traffickers through a series of black holes in which their access to digital technologies and connectivity is highly controlled. They are tortured, abused, extorted and subjected to sexual violence. Many die along the way. If they make it to the Mediterranean Sea, they risk being intercepted and returned to Libya or dying at sea. Over the period of this study, 2017-21, it is conservatively estimated that at least 200 000 men, women and children have fallen victim to human trafficking for ransom in Libya and the cumulative value of this trade for that period is estimated at over 1 billion USD. This detailed ethnographic study identifies the routes, modus operandi, organisation and key actors involved in the human trafficking for ransom of refugees and migrants who are desperately in need of protection. The book is part of the GAIC Research Network and African studies series published by Langaa RPCIG and makes an important contribution to the literature on human trafficking, migration studies, African studies, modern slavery, social protection and governance.

Comprehensive Energy Systems Ibrahim Dincer, 2018-02-07. Comprehensive Energy Systems Seven Volume Set provides a unified source of information covering the entire spectrum of energy, one of the most significant issues humanity has to face. This comprehensive book describes traditional and novel energy systems from single generation to multi generation, also covering theory and applications. In addition, it also presents high level coverage on energy policies, strategies, environmental impacts and sustainable development. No other published work covers such breadth of topics in similar depth. High level sections include Energy Fundamentals, Energy Materials, Energy Production, Energy Conversion and Energy Management. Offers the most comprehensive resource available on the topic of energy systems. Presents an authoritative resource authored and edited by leading experts in the field. Consolidates information currently scattered in publications from different research fields, engineering as well as physics, chemistry, environmental sciences and economics, thus ensuring a common standard and language. *Electoral Politics in Zimbabwe, Vol II* Esther Mavengano, Sophia Chirongoma, 2023-08-08. Volume two of Electoral Politics in Zimbabwe: The 2023 Election and Beyond argues that research into Zimbabwe's politics is multifaceted and topical, particularly because for more than two decades now, this Southern African state has been dogged by multiple problems including hyperinflation, drought, escalating poverty levels, extremely high unemployment rates and political instabilities. The volume's overall goal is to ignite intellectual discussions and practical action towards turning the political wheels that have been in place for decades. The first segment examines the interface between gender and electoral politics in Zimbabwe. The second part discusses the role of the media in Zimbabwe's electoral politics. The third section reflects on the role of traditional leaders and religious discourses in Zimbabwe's electoral politics. The book will be a key resource to colleges, universities and organisations in Zimbabwe, the Southern Africa region and even beyond. Accountant Student and Accountants' Journal, 1908.
