Khirbet Qumran and Ain-Feshkha III A (in English translation) Jean-Baptiste Humbert, 2023-11-13 For 60 years Qumran research has been focused on epigraphy exegesis and the historical sources of the Dead Sea Scrolls The manuscripts are now published and accessible and research is turning in a positive way to the archaeology of the site and its context The time has come to provide researchers with a complete documentation The excavator Roland de Vaux had given preliminary reports and a valuable interpretation made in the immediate aftermath of the excavations Since considerable progress has been made in the archeology of Hellenistic and Roman Palestine however Qumran has to be reassessed and the interpretation objectively verified Volume IIIA presents an up to date archaeological reconsideration a shorter and more precise chronology in which the earthquake of 31 BC is deleted the concept of an Essene community is challenged owing to the lack of a suitable infrastructure the cemetery itself is connected with a Jewish diaspora scattered around the Dead Sea Other facilities strengthen the Jewish character of the site however The function of Qumran fits better with the rites of a pilgrimage on the occasion of the festivals of Passover and Pentecost In the second part the peripheral Essene facilities expanded around an earlier Hellenistic center are analyzed and described The essay seeks to outline their internal consistency and to determine their function The restoration of a stratigraphy by cross checking the excavation archives leads to a redistribution of pottery in four levels in a more precise chronology The reconsideration makes use of anthropology which opens up the archaeological field and throws additional light on the manuscripts *Det Kongelige danske*

River Warfare in Vietnam Robin L. Rielly, 2024-02-08 America's entrance into the wars in Vietnam came as a result of several factors Among them was the necessity of bolstering French influence in the area in the face of mounting communist expansion This expansion was intensified by the outbreak of the Korean War making it necessary for the United States to revamp its Southeast Asian policy During the French era control of Vietnam's rivers streams and canals became necessary This led various factions to develop specialized military units heavily dependent on new types of river craft that could traverse the myriad waterways in Vietnam The focal point of this study is a new assessment of the conduct of river warfare Drawing on little known French Vietnamese and American sources and materials it sheds light on an important aspect of the Vietnam War Chapters also detail numerous aspects of river warfare not generally covered in other books on the subject

And think what curating is all about This book starts from this simple premise thinking the activity of curating To do that it
distinguishes between curating and the curatorial If curating is a gamut of professional practices for setting up exhibitions
then the curatorial explores what takes place on the stage set up both intentionally and unintentionally by the curator It
therefore refers not to the staging of an event but to the event of knowledge itself In order to start thinking about curating
this book takes a new approach to the topic Instead of relying on conventional art historical narratives for example
identifying the moments when artistic and curatorial practices merged or when the global curator author was first identified
this book puts forward a multiplicity of perspectives that go from the anecdotal to the theoretical and from the personal to
the philosophical These perspectives allow for a fresh reflection on curating one in which suddenly curating becomes an
activity that implicates us all artists curators and viewers not just as passive recipients but as active members As such the
Curatorial is a book without compromise it asks us to think again fight against sweeping art historical generalizations the
sedimentation of ideas and the draw of the sound bite Curating will not stop but at least with this book it can begin to allow
itself to be challenged by some of the most complex and ethics driven thought of our times
