Histories of Everyday Life Laura Carter,2021-07-22 *Histories of Everyday Life* is a study of the production and consumption of popular social history in mid twentieth century Britain It explores how non academic historians many of them women developed a new breed of social history after the First World War identified as the history of everyday life The history of everyday life was a pedagogical construct based on the perceived educational needs of the new mass democracy that emerged after 1918 It was popularized to ordinary people in educational settings through books in classrooms and museums and on BBC radio After tracing its development and dissemination between the 1920s and the 1960s this book argues that history of everyday life declined in the 1970s not because academics invented an alternative new social history but because bottom up social change rendered this form of popular social history untenable in the changing context of mass education *Histories of Everyday Life* ultimately uses the subject of history to demonstrate how profoundly the advent of mass education shaped popular culture in Britain after 1918 arguing that we should see the twentieth century as Britain s educational century

Resources in Education ,1982 **Coping with Migrants and Refugees** Tiziana Caponio,Irene Ponzo,2022-03-08 This book provides a comparative overview of asylum seekers reception throughout Europe by adopting a theoretical framework based on an analytical approach to the notion of multilevel governance MLG It challenges the tendency of the MLG literature to overlook political controversies and conflicts and questions the assumption that it represents the best policymaking arrangement for promoting policy convergence In doing so it explores the functioning of the reception component of the Common European Asylum System in centralised states and federal regional states and analyses its implementation at both national and local levels The book reveals the heterogeneous development of reception policies not only across Member States but also within each country where solutions adopted at the local level generally diverge substantially Furthermore the overall centralisation of policy making on reception regardless the institutional structure seems to leave little room for MLG arrangements tailored to specific localities and triggers tensions between central governments and local authorities This book will be of key interest to scholars and students of migration and asylum studies immigration multilevel global governance and more broadly to comparative politics European studies politics and public policy Chapter 3 Chapter 5 Chapter 6 Chapter 9 and Chapter 10 of this book is available for free in PDF format as

Not for Long Robert W. Turner II, 2018-07-06 The NFL is the most popular professional sports league in the United States Its athletes receive multimillion dollar contracts and almost endless media attention The league's most important game the Super Bowl is practically a national holiday Making it to the NFL however is not about the promised land of fame and fortune Robert W Turner II draws on his personal experience as a former professional football player as well as interviews with more than 140 current and former NFL players to reveal what it means to be an athlete in the NFL and explain why so many players struggle with life after football Without guaranteed contracts the majority of players are forced out of the league after a few seasons Over three quarters of retirees experience bankruptcy or financial ruin two thirds live with chronic pain and too many find themselves on the wrong side of the law Robert W Turner II argues that the fall from grace of so many players is no accident The NFL he contends powerfully determines their experiences in and out of the league The labor agreement provides little job security and few health and retirement benefits and the owners refuse to share power with the players making change difficult And the process of becoming an elite football player from high school to college and through the pros leaves athletes with few marketable skills and little preparation for their first Sunday off the field With compassion and objectivity Not for Long reveals the life and mind of high school college and NFL athletes shedding light on what might best help players transition successfully out of the sport

The Testimonies of Indian Soldiers and the Two World Wars Gajendra Singh, 2014-01-16 In the two World Wars hundreds of thousands of Indian sepoys were mobilized recruited and shipped overseas to fight for the British Crown The Indian Army was the chief Imperial reserve for an empire under threat But how did those sepoys understand and explain their own war experiences and indeed themselves through that experience How much did their testimonies realise and reflect their own fragmented identities as both colonial subjects and imperial policemen The Testimonies of Indian Soldiers and the Two World Wars draws upon the accounts of Indian combatants to explore how they came to terms with the conflicts In thematic chapters Gajendra Singh traces the evolution of military identities under the British Raj and considers how those identities became embattled in the praxis of soldiers war testimonies chiefly letters depositions and interrogations It becomes a story of mutiny and obedience of horror loss and silence This book tells that story and is an important contribution to histories of the British Empire South Asia and the two World Wars
