

EMC CLARiiON: Your Best Choice for VMware

More IT departments choose EMC CLARiiON storage for VMware than any other networked storage array

The Big Picture

- Highest availability for virtualized IT environments—99.999 percent
- The most flexible network deployment options for VMware: iSCSI and Fibre Channel connectivity
- Industry's only end-to-end quality of service (QoS) solution from virtual machines through CLARiiON storage
- Ease of use for dynamic virtualized infrastructures: Resizing any disk for production storage in one minute
- After performance characteristics and expand capacity of your virtual machine file systems without downtime with virtualSON and virtualLUN technology, snap it daily
- As extensive end-to-end deployments with EMC-based reference architectures, v-Lab, and service offerings

EMC CLARiiON CX series provides the highest availability for virtualized IT environments

EMC designed an entirely new midrange architecture—UltraScale™—to deliver the highest levels of availability in affordable, scalable, and easy-to-use systems that meet the needs for dynamic “ VMware ” environments/deployments. The EMC® CLARiiON® CX UltraScale architecture incorporates EMC UltraPoint™ technology for back-end functionality to provide better isolation of error conditions while reducing the long latency of the FC protocol, thereby increasing the performance of the system. In addition, the EMC CLARiiON CX series is designed with redundant power/cooling capabilities and features improved fault detection, isolation, and error-correction functions. The CLARiiON CX series also features hot-swap- ing to proactively copy data to a spare disk when the system senses a drive is beginning to fail. This reduces drive rebuild times and increases the availability of the array. EMC designed the industry's first 99.999 percent available midrange storage array because the availability of your virtual machines is only as good as the storage their data ultimately resides on. This is one of the many reasons why more customers choose EMC CLARiiON for VMware than any other networked storage array.
