L'emploi De La Force En Mer Cahiers De Droit International:

L'emploi de la force en mer Kiara Neri, 2013-02-20 Le droit international contemporain est placé face à un défi majeur : assurer la sécurité et la liberté des espaces maritimes alors que l'on y observe une recrudescence des activités illicites ou dangereuses. L'auteur s'inscrit dans le cadre de ce défi et tente de cerner la problématique de l'emploi de la force en mer afin de lutter contre ces activités. Elle se place alors dans la sphère du développement et de la mise en œuvre de pouvoirs de police dans les zones maritimes et tente de montrer l'ambivalence de la police internationale relative à la mer. Elle est caractérisée par une double juxtaposition entre l'objet de l'emploi de la force en mer : activités illicites de personnes privées ou actes illicites des États et entre les acteurs chargés de lutter contre l'illicite en mer. Elle se traduit par deux dialectiques distinctes mais imbriquées. La première : police internationale en mer et police internationale des mers repose sur les acteurs de l'illicite et détermine le corps de règles applicable. La seconde : emploi de la force centralisé et emploi de la force décentralisé met en scène les acteurs de la police relative à la mer et permet de mettre en lumière le besoin croissant d'une gestion commune centralisée des atteintes à l'ordre des mers.

Droit international des relations diplomatiques et consulaires Anna Maria Smolinska, Maria Boutros, Frédérique Lozanorios, Mariana Lunca, 2015-03-31 Le présent ouvrage aborde l'ensemble des aspects du droit international des relations diplomatiques et consulaires. Pour permettre une compréhension aisée de la matière, les axes choisis sont : la présentation et l'analyse détaillée des relations diplomatiques et consulaires des États et des relations extérieures des organisations internationales ainsi que les exemples de l'Union européenne et du Saint-Siège qui illustrent les relations extérieures des sujets sui generis. L'application du régime de la protection diplomatique et consulaire à la garde des personnes physiques et des personnes morales. L'apport fondamental de la jurisprudence internationale laquelle l'ouvrage sert une place importante en proposant une lecture des grands arrêts de la Cour internationale de justice et des juridictions régionales. Cet ouvrage s'adresse tout particulièrement aux étudiants de Licence et de Master en droit ou en science politique. Les encadrés de jurisprudence retenus et pour aller plus loin permettent de consolider et d'élargir les connaissances acquises.

Histoire des droits de l'homme de l'antiquité à l'époque moderne Liliana Haquin Sáenz, Kiara Neri, 2015-06-09 L'histoire de la construction des droits de l'homme a des racines bien au-delà de la traversée du Déclatation française. On les aperçoit dès les plus anciennes civilisations connues, notamment en Égypte et en Mésopotamie. C'est cette vaste période allant de l'Antiquité à 1789, très largement oubliée des juristes, qui fait l'objet de cet ouvrage synthétique. Nous voyons tout au long de l'ouvrage que les différentes périodes de l'histoire : Antiquité, Moyen Âge et époque moderne recèlent de très nombreux textes pour l'essentiel injustement méconnus qui ont contribué à la naissance des droits de l'homme tels que nous les connaissons aujourd'hui. Ils permettent également de mettre en lumière les avancées parfois majeures qui ont traversé d'autres temps par des civilisations souvent lointaines. Il convient également de rappeler que les textes et institutions qui seront présentés restent très éloignés de l'acception moderne des droits de l'homme. Les droits de l'homme sont en effet un produit de la modernité. Ils nécessitent pour voir le jour

que les notions de liberté d'galité et d'individu soient au coeur de la pensée politique mais également au coeur de la structure de la société. L'ouvrage n'a pas la prétention de présenter de manière complète et exhaustive les diverses manifestations de la protection des individus dans la vaste période annoncée. Il se contente de donner quelques clés de lecture de textes essentiels.

Le statut de combattant dans les conflits armés non internationaux Gérard Aivo, 2013-04-03. Avant les Conventions de Genève de 1949 seuls les conflits armés internationaux étaient régis par le droit de la guerre. Ce dernier ne pouvait s'appliquer dans les guerres civiles qu'après la reconnaissance des forces rebelles comme partie belligérante. Or depuis la Seconde guerre mondiale on a assisté à une multiplication des conflits armés non internationaux. Mais les Conventions de Genève de 1949 leur ont consacré seulement l'article 3 commun puis le Protocole II additionnel de 1977 est venu compléter. Ces deux textes comportent de nombreuses lacunes, notamment l'absence de définition des combattants et des civils rendant ainsi difficile le respect du principe de distinction pourtant essentiel, la protection des populations civiles. Ces dispositions ne réglementent pas non plus les moyens et méthodes de guerre. Outre les lacunes normatives, il y a des problèmes matériels qui compliquent la mise en œuvre efficace des règles pertinentes. Il s'agit notamment de la participation des populations civiles aux hostilités y compris les enfants soldats et les mercenaires. L'absence du statut de combattant dans les conflits armés non internationaux apparaît comme le problème principal compromettant l'efficacité du droit international humanitaire. Celle-ci ne contribue-t-elle pas au non respect de ce droit par les groupes armés ? Faudrait-il conférer ce statut ces derniers en vue de les amener appliquer le droit international humanitaire ou envisager d'autres moyens ? Toutes ces questions sont traitées. L'ouvrage intéressera les praticiens spécialisés en droit humanitaire, en droit de l'homme, en droit international public et en droit pénal international, mais aussi les professeurs et les étudiants.
