Lyden, Eric Michael Mazur, 2015-03-27 Religion and popular culture is a fast growing field that spans a variety of disciplines This volume offers the first real survey of the field to date and provides a guide for the work of future scholars It explores key issues of definition and of methodology religious encounters with popular culture across media material culture and space ranging from videogames and social networks to cooking and kitsch architecture and national monuments representations of religious traditions in the media and popular culture including important non Western spheres such as Bollywood This Companion will serve as an enjoyable and informative resource for students and a stimulus to future scholarly work **The Problem of Invented Religions** Steven J. Sutcliffe, Carole M Cusack, 2017-08-15 Invented religions have been described as modern religions which advertise their invented status and reject traditional strategies of authorisation But what does it mean for a religious formation to be made up and how might this status affect perceptions of its legitimacy or authenticity in wider society Based in original fieldwork and archival sources and in the secondary literature on invented and constructed formations this volume

explores the allure of as well as the limits of the invention of religion Through a series of case studies the contributors discuss strategies of mobilization and legitimation for new traditions at their point of emergence as well as taking issue with simplistic interpretations of the phenomenon which neglect wider cultural and political dimensions This book was originally published as a special issue of *Culture and Religion* ***Visioning New and Minority Religions*** Eugene Gallagher, 2016-11-25 Offering an assesment of the state of the field of the study of NRMs this book considers the analytical tools for the study of new or minority religions and draws on the perspectives of diverse academic disciplines Its essays focus on individual groups in a variety of geographical settings and review the past of particular groups in order to extrapolate future developments They cover new religions that have persisted well past the first generation such as the Mormon Church the Christian Scientists and the Jehovah s Witnesses and groups with comparatively shorter histories such as various forms of contemporary Paganism Soka Gakkai and the Diamond Way Buddhist group

The i-zation of Society, Religion, and Neoliberal Post-Secularism Adam Possamai, 2017-10-30 This book explores the elective affinity of religion and post secularism with neoliberalism With the help of digital capitalism neoliberalism dominates more and more all aspects of life and religion is not left unaffected While some faith groups are embracing this hegemony and others are simply following the signs of the times changes have been so significant that religion is no longer what it used to be Linking theories from Fredric Jameson and George Ritzer this book presents the argument that our present society is going through a process of i zation in which 1 capitalism dominates not

only our outer social lives through for example global capitalism but also our inner personal lives through its expansion in the digital world facilitated by various i technology applications 2 the McDonaldization process has now been normalized and 3 religiosity has been standardized Reviewing the new inequalities present in this i society the book considers their impact on Jurgen Habermas s project of post secularism and appraises the roles that various religions may have in supporting and or countering this process It concludes by arguing that Habermas s post secular project will occur but that paradoxically the religious message s will be instrumentalized for capitalist purposes
