**British Travel Writers in Europe 1750-1800** Katherine Turner, 2017-11-01 This title was first published in 2001  
Hundreds of European travelogues produced by British travellers between 1750 and 1800 remain out of sight in most libraries and have generally been out of print since the 18th century While many people with a working knowledge of the 18th century are familiar with works including Sterne's *A Sentimental Journey* and Smollett's *Travels through France and Italy* those produced by less literary travellers are largely unknown This study aims to recreate the world of 18th century travel writing in order to illuminate its central role in shaping Britain's emerging sense of national identity an identity which proves to be more complex and less homogeneous than some cultural and historical studies would suggest The author finds that the developing discourse of national character is bound up with questions of gender national and authorial virtue are projected in terms of appropriately gendered behaviour for male and female travel writers alike In turn gender intersects with class most obviously in the tendency to denigrate aristocratic travellers as effeminate and celebrate the more manly activities of the middle class traveller These then national identity authorship and gender are the central preoccupations of the study      **The Allies Strike Back, 1941-1943** James Holland, 2020-02-26 Volume two in this expert anecdote filled thoroughly entertaining history of WWII follows The Rise of Germany as the Allied forces turn the tides Kirkus James Holland's *The Rise of Germany* the first volume in his *War in the West* trilogy was widely praised for his impeccable research and lively narrative Covering the dawn of World War II it ended at a point when the Nazi war machine appeared to be unstoppable Germany had taken Poland and France with shocking speed London was bombed and U boats harried shipping on the Atlantic But Germany hadn't actually won the Battle of Britain or the Battle of the Atlantic It was not producing airplanes or submarines fast enough And what looked like victory in Greece and Crete had expended crucial resources in short supply *The Allies Strike Back* continues the narrative as Germany's invasion of Russia unfolds in the east while in the west the Americans formally enter the war In North Africa following major setbacks at the hands of Rommel the Allies storm to victory Meanwhile the bombing of Germany escalates aiming to not only destroy the its military industrial and economic system but also relentlessly crush civilian morale Comprehensive and impeccably researched Holland brings a fresh eye to the ebb and flow of the conflict in this majestic saga of 20th century history Literary Review UK      **Endpapers** Alexander Wolff, 2023-02-22 A powerfully told story of family honor love and truth the beautiful and haunting stories told in this book transcend policy and politics Beto O'Rourke A literary gem researched over a year the author spent living in Berlin *Endpapers* excavates the extraordinary histories of the author's grandfather and father the renowned publisher Kurt Wolff dubbed perhaps the twentieth century's most discriminating publisher by the *New York Times Book Review* and his son Niko who fought in the Wehrmacht during World War II before coming to America Born in Bonn into a highly cultured German Jewish family Kurt became a publisher at twenty three setting up his own firm and publishing Franz Kafka Joseph Roth Karl

Kraus and many other authors whose books would soon be burned by the Nazis After fleeing Germany in 1933 Kurt and his second wife Helen founded Pantheon Books in a small Greenwich Village apartment Pantheon would soon take its own place in literary history with the publication of Nobel laureate Boris Pasternak's novel *Doctor Zhivago* and as the conduit that brought major European works to the States But Kurt's taciturn son Niko, offspring of his first marriage to Elisabeth Merck, was left behind in Germany where despite his Jewish heritage he served the Nazis on two fronts As Alexander Wolff visits dusty archives and meets distant relatives he discovers secrets that never made it to the land of fresh starts including the connection between Hitler and the family pharmaceutical firm E Merck With surprising revelations from never before published family letters diaries and photographs *Endpapers* is a moving and intimate family story weaving a literary tapestry of the perils triumphs and secrets of history and exile

*Art History and Visual Studies in Europe*, 2012-06-22 Reflection on the history and practice of art history has long been a major topic of research and scholarship and this volume builds on this tradition by offering a critical survey of many of the major developments in the contemporary discipline such as the impact of digital technologies the rise of visual studies or new initiatives in conservation theory and practice Alongside these methodological issues this book addresses the mostly neglected question of the impact of national contexts on the development of the discipline Taking a wide range of case studies this book examines the impact of the specific national political institutional and ideological demands on the practice of art history The result is an account that both draws out common features and also highlights the differences and the plurality of practices that together constitute art history as a discipline

**Countries, Corporations and Cultures** Paul Melessen, 2017-06-06 With expanding globalisation international enterprises exercise a growing influence on organizational culture in countries where they operate Several dimensional frameworks exist to compare country cultures in a quantitative manner The same is true for organizational cultures Yet until now the paradigm has been that the two types of culture need to be measured by different frameworks For years this paradigm has been an obstacle for comparing work cultures internationally In this book author Paul Melessen presents a dimensional framework that bridges the gap between the two types of culture It builds on existing frameworks in particular

the VSM and OCM frameworks presented by Geert Hofstede to compare fifteen multinational corporations and subsequently draw several interesting conclusions Appropriately titled Countries Corporations and Cultures the book develops the Multilevel Culture MLC framework with a procedure called MCMC multilevel modelling Hence the subtitle A multilevel approach
