China's New United Front Work in Hong Kong Sonny Shiu-Hing Lo, Steven Chung-Fun Hung, Jeff Hai-Chi Loo, 2019-07-15 This book explores the dynamics of China's new united front work in Hong Kong Mainland Chinese penetrative politics can be seen in the activities of local pro Beijing political parties clans and neighborhood associations labor unions women and media organizations district federations and

some religious groups However united front work in the educational and youth sectors of civil society has encountered strong resistance because many Hong Kong people are post materialistic and uphold their core values of human rights the rule of law and transparency China s new united front work in Hong Kong has been influenced by its domestic turn toward hard authoritarianism making Beijing see Hong Kong s democratic activists and radicals as political enemies Hong Kong s one country two systems is drifting toward one country two mixed systems with some degree of convergence Yet Taiwan and some foreign countries have seen China s united front work as politically destabilizing and penetrative This book will be of use to scholars journalists and observers in other countries seeking to reckon with Chinese influence

Proceedings of the United States Naval Institute United States Naval Institute, 2015-07 Awakening to China's Rise Hugo Meijer, 2022-08-01 Awakening to China s Rise provides the most comprehensive analysis to date of how Europe s major powers have responded to the re emergence of China as a great power in world politics since the end of the Cold War To do so it puts forward a unique cross regional comparison of how the major European powers France Germany and the United Kingdom have confronted Chinese assertiveness both in the Asia Pacific and in Europe Firstly it analyses their response to China s increasingly muscular regional posture in the Asia Pacific through the development of diplomatic and security initiatives with partners in the region Secondly it delineates how they have confronted China s inroads into Europe looking at the measures that they have taken to tackle Chinese investments in and supply of technologies in strategic sectors such as critical national infrastructures dual use technologies and in the digital domain including Huawei s 5G networks A longstanding assumption in the IR literature has been that European foreign policies toward the People s Republic of China have been driven by a na ve and self interested focus on the economic opportunities presented by such a vast market overlooking security considerations This book challenges such common belief through a detailed examination of the policies of France Germany and the United Kingdom from 1989 to the present Its

central argument is that whereas this assessment aptly characterized the first two post Cold War decades Beijing's growing assertiveness after 2009 caused the three major European powers to awaken to China's rise. In the 2010s heightened threat perceptions of China coupled with increasingly competitive bilateral economic relations with the PRC have gradually and cumulatively caused the hardening of their policy goals which in turn translated into the formulation of new policy instruments to confront such a challenge. To substantiate this argument the book relies on a large body of previously undisclosed primary sources including 223 interviews conducted with senior officials in Europe (Berlin, Brussels, London, Paris) in the United States (Washington DC) and in Asia (Beijing, Shanghai, New Delhi, Seoul), declassified archival documents from France, the UK, and Germany, leaked US diplomatic cables, and new data on European naval deployments.

Arc of Containment Wen-Qing Ngoei, 2019-05-15 *Arc of Containment* recasts the history of American empire in Southeast and East Asia from World War II through the end of American intervention in Vietnam. Setting aside the classic story of anxiety about falling dominoes, Wen Qing Ngoei articulates a new regional history premised on strong security and sure containment guaranteed by Anglo-American cooperation. Ngoei argues that anticommunist nationalism in Southeast Asia intersected with preexisting local antipathy toward China and the Chinese diaspora to usher the region from European-dominated colonialism to US hegemony. Central to this revisionary strategic assessment is the place of British power and the effects of direct neocolonial military might and less overt cultural influences based on decades of colonial rule as well as the considerable influence of Southeast Asian actors upon Anglo-American imperial strategy throughout the post-war period. *Arc of Containment* demonstrates that American failure in Vietnam had less long-term consequences than widely believed because British pro-West nationalism had been firmly entrenched twenty-plus years earlier. In effect, Ngoei argues the Cold War in Southeast Asia was but one violent chapter in the continuous history of western imperialism in the region in the twentieth century.

Routledge Handbook of Contemporary Taiwan Gunter Schubert, 2016-05-20 *The Routledge Handbook of Contemporary Taiwan* offers a comprehensive overview of both contemporary Taiwan and the Taiwan studies field. Each contribution summarises the major findings in the field and highlights long-term trends, recent observations, and possible future developments in Taiwan. Written by an international team of experts, the chapters included in the volume form an accessible and fascinating insight into contemporary Taiwan. Up-to-date, interdisciplinary, and academically rigorous, the Handbook will be of interest to students, academics, policymakers, and others in search of reliable information on Taiwanese politics, economics, culture, and society.
