Emotional Intelligence 3 Lesson Plan:

Lesson Planning Jonathan Savage, 2014-07-25 Lesson planning is an essential component of every teacher's practice. It is part of a three-tiered integrated pedagogy: planning, teaching, and evaluation. It introduces the key concepts and skills of lesson planning and provides a practical framework for their development. Covering all aspects of short, medium, and long-term planning, chapters include Writing Appropriate Learning Objectives and Outcomes, Designing and Structuring Engaging Teaching Activities, Resourcing the Lesson, Assessing Students' Learning Strategies for Personalised Learning, and Evaluating Your Lesson. The book also includes practical and reflective activities to help the reader apply the ideas discussed to their own work and key questions to encourage the development of their skilful pedagogy. This highly practical book is essential reading for trainee and practising teachers.

Each chapter features a wide range of activities and strategies that can be used every day and easily adapted for different learners. The chapters also explore what to do when lessons don't go to plan and how to use technology effectively to support learning. Throughout, there are nuggets of useful theory to help you reflect not only on what works in the classroom but why. Written by an expert author team and linked to the early career framework, this is essential reading for all trainee and early career teachers across a wide range of educational settings.
