 more than 300 elevated water storage tanks Cathodic protection CP is required by regulation on many of these structures to  
 prevent corrosion Periodic testing is required to ensure proper CP system operation but many Directorates of Public Works  
 DPWs do not have sufficient resources to conduct such tests regularly Many malfunctions remain undetected until the  
 structure corrodes and leaks Several companies have begun manufacturing remote monitoring units RMUs for CP systems  
 This technology allows personnel to monitor multiple CP systems from a central location so problems can be detected and  
 repaired immediately An 8 month field evaluation of CP RMUs was performed to determine the effectiveness of systems from  
 three manufacturers Demonstration systems were selected on the basis of cost features availability etc RMU readings were  
 compared with manual method readings throughout a variety of conditions Units from only one manufacturer performed  
 successfully New systems have entered the market since this demonstration began Unit, Direct Support and General

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
