

A woman with dark hair tied back in a bun is smiling warmly at the camera. She is wearing a light-colored, patterned jacket over a dark top. In her arms, she holds a vibrant bouquet of flowers, including shades of orange, yellow, red, and purple. The background is a soft-focus outdoor scene with greenery and a pinkish sky.

Rosenthal,2014-12-02 Known for its clear explanations of drug prototypes and how they work Lehne's Pharmacology for Nursing Care 9th Edition provides a solid understanding of key drugs and their implications for nursing care A perennial student favorite this book simplifies complex concepts using large and small print to distinguish need to know drug content

from the material that's merely nice to know. New to this edition are quick reference summaries of prototype drugs safety alerts and a stronger QSEN focus. Written by noted nursing pharmacology instructors Jacqueline Burchum and Laura Rosenthal, this text helps you understand pharmacology as opposed to merely memorizing drug facts. UNIQUE Engaging writing style with clear explanations makes difficult pharmacology concepts easy to grasp and even enjoyable to learn. Large print highlights essential need to know information and small print indicates nice to know information. A drug prototype approach focuses on one representative drug within each drug family that characterizes all members of its group so that you can apply your understanding to related drugs currently on the market as well as drugs that will be released in the future. Nursing implications of drug therapy are integrated throughout the text and summarized at the end of chapters demonstrating the vital relationship between drug therapy and nursing care. Reader friendly features make learning easier with concise drug summary tables, chapter outlines, key points and a visual guide to the prototype drugs in each class. Learning resources on an Evolve companion website include video clips, animations, case studies and NCLEX exam style review questions. Coverage of dietary supplements and herbal remedies describes potential dangerous interactions between prescribed and over the counter drugs and dietary supplements. NEW QSEN focus includes Patient Centered Care Across the Life Span features highlighting safe and appropriate patient care during different phases of life. NEW Safety Alert features emphasize the QSEN competency relating to patient safety. NEW Prototype Drugs features serve as a quick reference aid to learning. NEW Chapter outlines include page numbers to help you locate topics quickly. UPDATED Special Interest Topic boxes use engaging vignettes to focus on emerging and currently trending issues in pharmacology. NEW authors continue Dr Lehne's clear unique writing style with the same accuracy and state of the science updates.

[Development and Evaluation of Positive Adolescent Training through Holistic Social Programs \(P.A.T.H.S.\)](#) Daniel T.L. SHEK, Rachel C. F. Sun, 2013-06-28

This book outlines the development, implementation and evaluation of a project entitled P A T H S to Adulthood A Jockey Club Youth Enhancement Scheme with P A T H S denoting Positive Adolescent Training through Holistic Social programmes. This pioneer project was conducted in Hong Kong between 2005 and 2012 with more than 210 000 participants. Its goal was to help students meet various challenges in their path to adulthood with a focus on their psychosocial competencies, developmental assets and the promotion of healthy peer relationships. The project was initiated by The Hong Kong Jockey Club Charities Trust in collaboration with the Government's Social Welfare Department Education Bureau and five universities in Hong Kong. Edited by the researchers of the project, Development and Evaluation of Positive Adolescent Training through Holistic Social Programs explores the nature of positive youth development PYD, the application of PYD constructs to youth programs and implementation issues. Using multiple strategies the book evaluates the overall effectiveness of the P A T H S school based programme and reveals that stakeholders had positive perceptions of the project, its implementers and benefits. Students in the program showed better positive development and displayed lower levels of

substance abuse and delinquent behaviour than students in the control schools The book also details lessons learned emergent issues future directions as well as insights into the development of positive youth development programs particularly in Chinese communities Development and Evaluation of Positive Adolescent Training through Holistic Social Programs will appeal to all educators administrators psychologists social workers and allied professionals looking to promote whole person development in their students especially those with interest in education in China *Nutrition Counseling and Education Skills: A Guide for Professionals* Betsy B.
