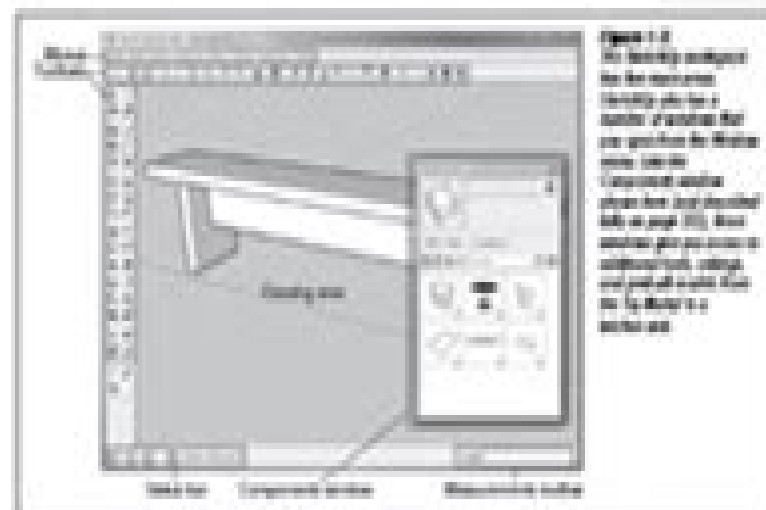

Figure 1-1: The SketchUp window. The image shows the SketchUp software interface with various toolbars and a 3D model of a desk. Labels point to the 'SketchUp' menu, 'Component window', and 'Sketching toolbar'.

In addition to the five main windows, SketchUp uses several different windows, such as the Component window that's open in Figure 1-1. You can open and close these as needed by using the Window menu. With the tools in these windows, you'll apply color and shading to your models, select prefabricated components, add shadows and lighting effects, and export your project.

SketchUp's menu bar is stocked with the usual suspects, such as File, Edit, Window, and Help. SketchUp's View menu is a little different from the ones in most programs (Figure 1-4). The View menu has items in the SketchUp window that you can show or hide, including things like drawing guides, wire frame, measurement tools, and view different models. If you're looking for tools that change over time of the SketchUp window, such as a View or Pan tool, look inside the Window menu.
