early twentieth century and by the 1930s the increasing faith in an academic meritocracy The use of report cards expanded with the growth of school bureaucracies becoming a tool through which administrators could surveil both student activity and teachers And by the late twentieth century even the most radical critics of numerical reporting of children have had to compromise their ideals Morris traces the evolution of how teachers students parents and administrators have historically responded to report cards From a western New York classroom teacher in the 1830s and a Georgia student in the 1870s who was born enslaved to a Colorado student incarcerated in the early 1900s and the son of Russian Jewish immigrants applying to college in the 1930s Report Cards describes how generations of people have struggled to maintain dignity within a system that reduces children to numbers on slips of paper
