

Graduation Speech

Hello. It is an honor for me to be here tonight to bring greetings and congratulations from the school board.

As I began thinking about what I should say to you, I discovered that I could go on for hours talking about your years at (*name of school*) High School . . . about the experiences you've had which prepared you for this day and for the future. I began making notes about all the advice I should share with you and about all of the many topics I wanted to cover.

Then a friend reminded me about the fate of the famous Greek philosopher, Socrates, who lived a long, long time ago.

Socrates was very intelligent. But Socrates gave long speeches, and his friends killed him.

Since I am no Socrates . . . nor do I want to end up like Socrates . . . I will be brief and to the point.

Tonight (*number of graduates*) seniors are graduating from (*name of school*) High School. The room is packed with your friends and relatives, and every person here is proud of you . . . of your accomplishments . . . and of the goals that you have reached. If each of us were to write down a definition of a successful graduate, we would quickly discover that some of the same words and phrases would be repeated over and over again. Common themes would be – dedication, perseverance, integrity, honesty, conscientiousness, dependability and hard work.

From all of the terms used to describe graduates, the one I think should receive top billing is "winner". Each and every one of you is a winner! You have demonstrated through hard work, dependability, conscientiousness,

Minority Tech Anjuan Simmons, 2013-07-28 The technology field has become a key driver of the world economy. Companies like Apple, Google, Microsoft, and Facebook are not only iconic organizations but their founders are often legends in their own right. However, the ethnic and gender makeup of these companies are overwhelmingly reflections of their founders: white males. Anjuan Simmons has worked in the technology industry for 20 years as a software developer, infrastructure architect, and software project manager. His experiences as a minority in the technology industry inspired him to describe them on his blog. *Minority Tech* is a curated, edited, and augmented selection of those blog entries. The titles covered include *The New Negro Problem*, *America and the Loss of the Black Genius*, *A Code of Conduct for Black Men*, *Why I Believe in Affirmative Action*, *What the world Needs from Trayvon Martin*, *3 Reasons Why the Technology Industry Needs More Diversity*, *What Facebook Taught Me about Rape Prevention*, and more.

Leadership for Adolescents Carolyn M. Anderson, 2013-11-19 Some say leaders are individuals who get people to do what they want them to do while others say leaders are those who are perceived by others as powerful and influential. Still others say that leaders are simply born to lead. Regardless of the definition, however, it is undeniable that leadership plays an important role in society. In *Leadership for Adolescents*, author Dr. Carolyn M. Anderson offers a seven-step guide to help teenagers understand the role of a leader and to teach them the skills needed for a leadership position. Detailing key characteristics, she discusses the I in leader, theme, developing a basic understanding of self and of the leadership skills, competencies, and characteristics one already possesses. She also explores essential verbal and nonverbal communication skills, decision making in small groups, conflict, what it means, and how it can be managed, the need for integrity, and the importance of an ethical approach to living and leading, and the importance of continuous learning. The process of assuming a leadership role entails learning, experiencing, and continuous growth in skill building. Including discussion exercises to reinforce learning, the book provides a foundation that can help teens navigate their academic career and eventual career path.
