**Objection** Debra Lieberman,Carlton Patrick,2018-07-03 Why do we consider incest wrong even when it occurs between consenting adults unable to have children Why are words that gross us out more likely to be deemed obscene and denied the protection of the First Amendment In a world where a gruesome photograph can decisively influence a jury and homosexual behavior is still condemned by some as unnatural it is worth asking is our legal system really governed by the power of reason Or do we allow a primitive human emotion disgust to guide us in our lawmaking In *Objection* psychologists Debra Lieberman and Carlton Patrick examine disgust and its impact on the legal system to show why the things that we find stomach turning so often become the things that we render unlawful Shedding light on the evolutionary and psychological origins of disgust the authors reveal how ancient human intuitions about what is safe to eat or touch or who would make an advantageous mate have become co opted by moral systems designed to condemn behavior and identify groups of people ripe for marginalization Over time these moral stances have made their way into legal codes and disgust has thereby served as the impetus for laws against behaviors almost universally held to be disgusting corpse desecration bestiality and as the implicit justification for more controversial prohibitions homosexuality use of pornography Written with a critical eye on current events Lieberman and Patrick build a case for a more reasoned approach to lawmaking in a system that often confuses gross with wrong

Encyclopaedia of Informality represents the beginning of a new era in informality studies. With its wealth of information, diversity, scope, theoretical innovation, and artistic skill, this collection touches on all the aspects of social and cultural complexity that need to be integrated into policy thinking. Predrag Cvetković, Centre for Empirical Cultural Studies of South East Europe, Belgrade, Serbia. This is a monumental achievement, an indispensable reference for anyone in the social sciences interested in informality. Martin Holbraad, Professor of Social Anthropology, UCL and editor in chief of *Social Analysis*. This impressive work helps us understand our complex times by showing how power develops through informal practices, mobilizing emotional, cognitive, and relational mechanisms in strategies of survival but also of camouflage and governance. Donatella della Porta, Director of Centre of Social Movements Studies, Scuola normale superiore, Firenze, Italy. An impressive, informative, and intriguing collection. With evident passion and patience, the team of 250 researchers insightfully portrays the multiplicity of informal and often invisible expressions of human interdependence. Subi Rangan, Professor of Strategy and Management, INSEAD, Fontainebleau, France. This compendium of terms used in different cultures to express aspects of informal economy provides a unique supplement to studies of a major yet understated by academic economics, social issue. It will be of key significance for in-depth teaching of sociology, economics, and history. Teodor Shanin, OBE, Professor and President of the Moscow School of Social and Economic Sciences. Modern states have sought to curb control and subdue informality. The entries in the *Global Encyclopaedia* demonstrate the endurance of informality over such efforts. More recently, the rise and political success of anti-establishment movements in so many parts of the world is a wide-ranging challenge and delegitimation of national and transnational formal institutions of governance. Understanding the perceived shortcomings of formal institutions and the appeal of anti-establishment movements must at least in part be informed by a study of informality and its networks. This *Encyclopaedia* is essential reading if we wish to understand and engage with these challenges of our age. Fredrik Galtung, Chairman, Integrity Action.

*Sacred, Symbolic, and Contested* Gregory S. Szarycz, 2025-09-04. *Sacred, Symbolic, and Contested* explores how animals are revered, represented, and disputed across global cultures. Through vivid case studies from sacred cows in India to ritual slaughter in Judaism and animal commodification in industrial societies, this book reveals how human-animal relationships express deep ethical, religious, and political tensions. You'll encounter surprising contradictions: animals celebrated in myth yet mistreated in practice or protected in law yet consumed in daily life. Drawing on sociology, religious studies, and critical animal studies, this timely work invites you to rethink the role of animals in shaping human identity, culture, and moral responsibility.
