We live in a society driven by rapid and unpredictable changes. The concept of the fourth industrial revolution was introduced less than ten years ago, the more aware and reality oriented smart factories. By this we mean novelties in production technologies enabling IT services and greater attention to energy consumption. Today we are discussing the fifth stage in the evolution of society, the advent of the 50 company. This book outlines strategic lines and suggests future directions for the development of the super smart society which takes responsibility and ensures sustainability by adhering to new smart technologies and skills. The book is intended for a broad audience working in the fields of material science and engineering, energy environment etc. It is an invaluable reference source for researchers, academicians, students, industrial institutions, government and independent institutes, individual research groups and scientists working in the field of industrial applications of smart manufacturing design. *MotorBoating*, 2003-04 *Asia Pacific Shipping*, 2004 *Flying Magazine*, 2003-02 European Space Agency and Programs Handbook: Strategic Information and Contacts IBP, Inc., 2009-03-20 European Space Agency ESA Handbook *The Air Pilot's Guide to Satellite Positioning Systems* Walter Blanchard, 1995. The aim of this book is to describe how satnav systems are designed and work especially from the aviation viewpoint without getting too heavily involved in mathematics and electronic engineering. It does however assume some knowledge of elementary maths, physics and electronics and a nodding acquaintance with navigational terminology. It is written for the satnav user who wishes to explore the subject more deeply than simply knowing which knob to twiddle and also to provide technical background material for the increasing number of non specialists having to deal with GNSS and its implementation. *GPS World*, 1994 WOCE Operations Manual, Volume 3: the Observational Programme, Section 3.1: WOCE Hydrographic Programme, Part 3.1.2: Requirements for WHP Data Reporting, 1991 **MotorBoating**, 2001-04
