Le Don Des Philosophes:

Le Don des philosophes. Repenser la réciprocité Marcel Hénaff, 2012-03-19 T00:00:00+01:00 Quand il s'agit du don les philosophes se veulent les plus généreux Le seul vrai don leurs yeux est le don sans retour Toute réciprocité leur semble d'emblée complice de l'échange marchand Ce soupçon peut-il expliquer que depuis quelques décennies en France notamment se soit développé une pensée du don hantée par l'exigence du gratuit Et que cette pensée se soit souvent formulée dans une réflexion sur le monde comme donné selon une approche issue de la phénoménologie Cette démarche est elle légitime La réponse varie fortement selon qu'il s'agit de Derrida Levinas Henry ou Marion Elle diffère plus encore chez Ricœur et chez des penseurs réfléchissant sur les sciences sociales comme Lefort et Descombes Si le débat est souvent obscur estime Marcel Hénaff c'est que font défaut de nécessaires distinctions entre les divers types de don Le don gracieux et le don solidaire ignorent l'exigence de réciprocité Celle-ci au contraire s'impose au cœur du don communautaire qui est d'abord d'union d'alliance geste de reconnaissance publique mutuellement accordée par quoi le lien social proprement humain s'affirme lien politique Marcel Hénaff est philosophe et anthropologue professeur à l'université de Californie San Diego Il est notamment l'auteur de *Le Prix de la vérité* *Le don* *l'argent* la philosophie Seuil 2002 , Biographie Universelle, Ancienne Et Moderne , 1843 De L'Allemagne Madame de Staël (Anne-Louise-Germaine), 1845 The Theory and Practice of Recognition Onni Hirvonen, Heikki J. Koskinen, 2022-09-23 This volume presents new essays on the theory and practice of recognition In order to retain its overall plausibility as a critical social theory contemporary recognition theory needs to be able to successfully combine theory with real life perspectives in both contemporary and historical contexts Contemporary recognition theory has developed into an established and active multidisciplinary research programme The chapters in this volume have two main purposes First they engage in theoretical development of the contemporary theories of recognition They explore the conceptual histories and the environments of recognition as well as the connection between recognition and authenticity emancipation and social ontology Second they connect the theoretical insights of contemporary recognition with analyses of contemporary and historical social practices These contributions explore themes such as populism and polarization models of harmful invisibilization and social ignorance the problem of evil and suffering and social justice phenomena such as the MeToo movement The Theory and Practice of Recognition will be of interest to scholars and advanced students working in social and political philosophy social ontology political theory and sociology *Making Values Explicit* Sue Spaid, 2025-06-23 This book explores a wide range of topics to demonstrate how relevant values rather than virtues affects emotions or beliefs motivate people to act in ways that structure their identities inspiring others to treat them as they see themselves or want others to see them The Climate Change Crisis has brought several anomalies into focus Clear and distinct information fails to alter people's beliefs and thus their actions don't change By contrast visual arts implicit messages does tend to alter people's beliefs over time The very act of encountering novel values inspires people to shift beliefs to accommodate new values All of this takes place in such a

subtle manner that people may not realise their values have shifted until they act or react differently This unusual and innovative book examines how people's underlying values prompt their spontaneous reactions These can range from attention to smell pleasant and unpleasant ideas regarding worth and value notions of justice desire to remediate degraded lands appreciation of gifts efforts to boost wellbeing and strategies for mitigating climate change In working through these issues it will prompt readers to reflect upon how their values structure their personal identities in terms of their daily activities and decisions and provide the opportunity to evaluate how and whether their actions align with their values The Philosophers' Gift Marcel Hénaff, 2019-11-05 The French philosopher and anthropologist examines contemporary philosophical conceptions of gift giving commercial exchange and social cohesion When it comes to giving philosophers love to be the most generous For them every form of reciprocity is tainted by commercial exchange Thinkers such as Derrida Levinas Henry Marion Ricoeur Lefort and Descombes have made the gift central to their work haunted by the requirement of disinterestedness As an anthropologist as well as a philosopher H naff worries that philosophy has failed to distinguish among various types of giving The Philosophers Gift returns to the seminal work of Marcel Mauss to reexamine these thinkers through the anthropological tradition H naff shows that reciprocity rather than disinterestedness is central to ceremonial giving and alliance whereby the social bond specific to humans is proclaimed as a political bond From the social fact of gift practices H naff develops an original and profound theory of symbolism the social and the relationship between self and other whether that other is an individual human being the collective other of community and institution or the impersonal other of the world Winner of the French Voices Award for excellence in publication and translation The French Review , 1929 **The Ambiguity of Justice: New Perspectives on Paul Ricoeur's Approach to Justice** , 2020-07-13 The Ambiguity of Justice offers a collection of essays on Ricoeur's thought on justice and on the different views that influenced this thought in particular those of Arendt Honneth H naff Rawls Levinas and Boltanski Although Ricoeur's idea of justice has undoubtedly caught much attention already only a few monographs have been published so far that explicitly address this topic The contributors of this book a mix of both well established Ricoeur scholars and young promising scholars in this field address the difficulties in Ricoeur's thought on justice by maintaining his spirit of dialogue not only by showing how Ricoeur himself repeatedly searches for dialogue in his writings on justice but also by arguing that Ricoeur's thought allows contributions to contemporary debates about justice **Le Guide Musical** , 1897 Selections from Diderot Denis Diderot, 1908 **Dictionnaire D'archéologie Chrétienne Et de Liturgie, Publié Par Le R. thought in general Bibliothèque des philosophes (chymiques) par le sieur S.D.E.M. ,1678 **Le don de l'Esprit Saint, don increé et don créé, selon la doctrine de saint Thomas d'Aquin** Stanislas J. Kolipinski,1924 **La restauration de la création** Michele Cutino,Isabel Iribarren,Françoise Vinel,2017-12-05 La restauration de la création se propose d'examiner le statut des animaux dans la pensée chrétienne ancienne et médiévale selon une perspective eschatologique centrée sur la question du salut des animaux dans le projet divin L'ouvrage est organisé en trois parties les sources bibliques notamment la promesse du renouvellement de la création dans Rm 8 21 les laborations doctrinales dans la période patristique puis au Moyen âge enfin des réflexions contemporaines propos du statut des animaux dans nos sociétés Souvent absente du débat social propos des animaux la perspective historique chrétienne proposée dans ce volume se veut une contribution originale la réflexion actuelle sur le statut juridique et éthique des animaux La restauration de la création aims to examine the status of animals in ancient and medieval Christian thought following an eschatological perspective that is focusing on the question of the salvation of animals according to the divine plan The volume is articulated in three parts Biblical sources in particular the promise of the renewal of creation according to Rm 8 21 Patristic and medieval doctrinal elaborations on the question finally contemporary considerations regarding the status of animals in our societies Often absent from the current social debate on the subject the historical Christian perspective which this volume proposes is intended as an original contribution to today's ongoing reflexion on the legal and ethical status of animals *The Printing Art* ,1923 **L'écriture du bonheur dans le roman contemporain** Ruth Amar,2011-01-18 Through the ages the pursuit of Happiness has been at the heart of the needs and desires each individual would seek to fulfill while as a concept Happiness has always resonated strongly in poetic as well as philosophical sociological and psychological contexts But what about Happiness today in a world dominated by technology driven by productivity and dictated by efficiency Does Happiness still feature in contemporary fiction in any significant way Or has it perhaps gone underground adopting different guises Would we still call that duty of happiness that Pascal Bruckner saw as present at the second half of the twentieth century a relevant force today Or has it waned perceptibly The articles brought together in this volume seek to work out answers to these and similar questions creatively addressing the imminent risks but also eagerly following up the intriguing possibilities one encounters when interrogating Happiness in the contemporary novel Originally based on an international conference organized at the University of Haifa Israel in May 2010 the volume is structured around the axes we found useful as a basis for the various approaches towards Happiness in Europe and the historical and social events that influenced the writing of Happiness as they defined the 20th century and have impacted on the 21st the Holocaust the Soviet dystopia consumerism postmodernism everyday life the various as yet unarticulated new modes of life they have given rise to and so on A new writing of happiness then At the very least this volume targets the contemporary novel without wanting to solidify works instead taking into account the fluctuations Happiness has been subjected to and the diversity and especially the paradoxes it has created while we have been keen to

preserve a precise reading of the texts and have felt compelled to respect and preserve the particular features that make the writings of the authors we focus on stand out. The philosophical as well as political, sociological and psychological le bonheur s'effie la mesure de chacun. N'est-il pas vrai que nous autres hommes nous désirons tous être heureux ? Platon. Or dans notre monde actuel dominé par la technique, la recherche outrance du productif et de l'efficacité, qu'en est-il du bonheur ? Est-il encore présent aux critiques romanesques contemporaines ? Sous quelles formes se présenterait sa recherche ? Ce devoir de bonheur propre à la deuxième moitié du XXe siècle dont parle Pascal Bruckner continue-t-il toujours d'actualité ? S'est-il renforcé ou au contraire s'est-il affaibli ? Le projet d'un questionnement du bonheur dans le roman contemporain comportait de gros risques mais il offrait en même temps des possibilités stimulantes. À la suite du colloque international organisé à l'université de Haifa en mai 2010, les textes réunis dans ce livre cherchent à laborer des éléments de réponse à ces questions. Le volume offre un état des lieux du bonheur dans le roman depuis 1980 et présente une large diversité d'approches, de définitions, d'interrogations sur la critique du bonheur sur trois siècles. Le recueil s'articule autour d'axes qui ont servi de base aux différentes approches du bonheur en Europe et d'événements historiques et sociaux qui ont pu influencer la critique du bonheur aux différentes périodes du XXe et XXIe siècles, telles que l'Holocauste, la dystopie en Russie, le postmodernisme et le consumérisme, le quotidien, les différents paradoxes du bonheur, les nouveaux modes de vie. Nouvelle critique du bonheur. Du moins, ce volume vise-t-il le contemporain sans figer les œuvres tout en tenant compte des fluctuations du sujet, de sa diversité, de ses paradoxes, surtout tout en conservant la lecture précise des textes et en respectant la particularité de la critique des auteurs traités.
