SERVICE STATION PROCEDURE

1. Before the car radio is to be serviced, it should be accompanied by Chrysler Corporation Form No. 17004. This form must be filled in by the authorized dealer prior to the technician's visit, as a warranty record. If the dealer is not equipped to selling dealer's car, he then should be the authorized Chrysler Corporation dealer. In either case, the Chrysler Corporation Form No. 17004 must be attached showing the radio to be within the factory warranty period before making the repair.

2. Fill in Motorola Auto Radio Repair Work Order form. Mark the 140-00000 and read while working repair with Chrysler Corporation Form No. 17004 in Service Department. Chrysler Corporation National Products Co., 1400 W. Grand Avenue, Franklin Park, Illinois.

3. Before repair of Motorola Auto Radio, complete the form in the Authorized Service Network form.

4. Defective parts that require replacement should be replaced by the technician. For free replacement, supported with the defective parts return from which you are not taking.

5. Only those service technicians can be those Motorola Distributor.

For further repairs within the warranty period, a no-charge repair to the customer. If you are not already authorized as a Motorola Auto Radio Service Station and you are interested in handling this service, please contact your Motorola Distributor for complete details.

TO SET PUSHBUTTONS

When required to work up for other models, then set the pushbutton to work. Then pushbutton is likely to lock after station has been selected.

SERVICE NOTES

1. RADIO POLARITY - WHEN REPAIRING THIS RECEIVER, THE PAIR LEADS MUST BE CONNECTED TO THE POSITIVE AND NEGATIVE BATTERIES IN CORRECT POLARITY. RECEIVER WILL NOT OPERATE AND DAMAGE TO COMPONENTS MAY RESULT.

2. POWER SUPPLY REPAIRING - It is preferable to use a storage battery instead of a battery charged in place of a battery when working. If a battery charger is used, it must be well filtered and regulated.

3. PLATED CHASSIS BOARD - The chassis board is plated with a thin layer of gold. This plating is not used in the chassis board. The plating is

Bhattacharyya,Ed F. Deprettere,Rainer Leupers,Jarmo Takala,2010-09-10 It gives me immense pleasure to introduce this timely handbook to the research velopment communities in the eld of signal processing systems SPS This is the rst of its kind

and represents state of the arts coverage of research in this eld The driving force behind information technologies IT hinges critically upon the major advances in both component integration and system integration The major breakthrough for the former is undoubtedly the invention of IC in the 50 s by Jack S Kilby the Nobel Prize Laureate in Physics 2000 In an integrated circuit all components were made of the same semiconductor material Beginning with the pocket calculator in 1964 there have been many increasingly complex applications followed In fact processing gates and memory storage on a chip have since then grown at an exponential rate following Moore s Law Moore himself admitted that Moore s Law had turned out to be more accurate longer lasting and deeper in impact than he ever imagined With greater device integration various signal processing systems have been realized for many killer IT applications Further breakthroughs in computer sciences and Internet technologies have also catalyzed large scale system integration All these have led to today s IT revolution which has profound impacts on our lifestyle and overall prospect of humanity It is hard to imagine life today without mobiles or Internets The success of SPS requires a well concerted integrated approach from mul ple disciplines such as device design and application

Supply Chain Engineering and Logistics Handbook Erick C. Jones,2019-11-12 This handbook begins with the history of Supply Chain SC Engineering it goes on to explain how the SC is connected today and rounds out with future trends The overall merit of the book is that it introduces a framework similar to sundial that allows an organization to determine where their company may fall on the SC Technology Scale The book will describe those who are using more historic technologies companies that are using current collaboration tools for connecting their SC to other global SCs and the SCs that are moving more towards cutting edge technologies This book will be a handbook for practitioners a teaching resource for academics and a guide for military contractors Some figures in the eBook will be in color Presents a decision model for choosing the best Supply Chain Engineering SCE strategies for Service and Manufacturing Operations with respect to Industrial Engineering and Operations Research techniques Offers an economic comparison model for evaluating SCE strategies for manufacturing outsourcing as opposed to keeping operations in house Demonstrates how to integrate automation techniques such as RFID into planning and distribution operations Provides case studies of SC inventory reductions using automation from AIT and RFID research Covers planning and scheduling as well as transportation and SC theory and problems

Modern Construction Lincoln H. Forbes,Syed M. Ahmed,2010-10-13 During the past several decades the manufacturing and service industries significantly increased their levels of productivity quality and profitability through the application of process improvement techniques and information technology Unfortunately the construction industry lags far behind in the application of performance improvement and optimization techniques as well as its overall competitiveness Written by Lincoln H Forbes and Syed M Ahmed both highly regarded for leadership and innovation Modern Construction Lean Project Delivery and Integrated Practices offers cutting edge lean tools and other productive strategies for the management of people and processes in the construction industry Drs Forbes and Ahmed focus mainly on lean

construction methodologies such as The Last Planner R System The Lean Project Delivery System TM and Integrated Project Delivery TM The tools and strategies offered draw on the success of the world renowned Toyota Production System TPS adapted to the construction environment by construction professionals and researchers involved in developing and advocating lean construction methods The book also discusses why true lean construction can best occur when all the construction stakeholders owners designers constructors and material suppliers are committed to the concept of optimizing the flow of activities holistically while de emphasizing their self interest The authors also reintroduce process improvement approaches such as TQM and Six Sigma as a foundation for the adoption of lean methodologies and demonstrate how these methods can improve projects in a so called traditional environment The book integrates these methods with emerging interest in green construction and the use of information technology and Building Information Modeling BIM while recognizing the human element in relation to motivation safety and environmental stresses Written specifically for professionals in an industry that desperately needs to play catch up the book delineates cutting edge approaches with the benefit of successful cases and explains how their deployment can improve construction performance and competitiveness
