Obama and Kenya Matthew Carotenuto, Katherine Luongo, 2016-07-29 Barack Obama's political ascendancy has focused considerable global attention on the history of Kenya generally and the history of the Luo community particularly. From politicians populating the blogosphere and bookshelves in the U.S. and Kenya to tourists traipsing through Obama's ancestral home, a variety of groups have mobilized new readings of Kenya's past in service of their own ends. Through narratives placing Obama into a simplified sweeping narrative of anticolonial barbarism and postcolonial tribal violence, the story of the United States president's nuanced relationship to Kenya has been lost amid stereotypical portrayals of Africa. At the same time, Kenyan state officials have aimed to weave Obama into the contested narrative of Kenyan nationhood. Matthew Carotenuto and Katherine Luongo argue that efforts to cast Obama as a son of the soil of the Lake Victoria basin invite insights into the politicized uses of Kenya's past. Ideal for classroom use and directed at a general readership interested in global affairs, *Obama and Kenya* offers an important counterpoint to the many popular but inaccurate texts about Kenya's history and Obama's place in it, as well as focused thematic analyses of contemporary debates about ethnic politics, tribal identities, postcolonial governance, and U.S. African relations.

From Mukogodo to Maasai Lee Cronk, 2018-04-27 This book focuses on the strategic manipulation of ethnic identity by the Mukogodo of Kenya. It is about how Mukogodo people changed their way of life to a radically different one that is their change as Maasai people, giving them a new way of living, a new language, and a new set of beliefs.

Kenya's Uncertain Democracy Peter Kagwanja, Roger Southall, 2013-09-13 The plunging of Kenya until recently a centre of stability and growth in East Africa into political and economic uncertainty following the general election of December 2007 is regarded as a major cause for global and African concern. It is widely accepted that the elections were deeply flawed and that there was electoral malfeasance by all the major players. President Kibaki's rapid declaration of victory in the face of a heavily disputed election and his determination to hold on to the levers of state power precipitated a deadly crisis, communal violence, and economic decline. A power-sharing deal between Kibaki and Opposition leader Raila Odinga, signed in February, seems to be holding, but Kenya ranks among the world's growing number of democracies at risk. This book takes a new look at the 2007 election, the post-election crisis, the underlying interaction of ethnicity, class, and political power, forced displacement, the role of international forces, and the country's power-sharing arrangement. The study will draw upon the expertise of a variety of leading experts on Kenya and will be edited by Peter Kagwanja and Roger Southall. The overall project was based on a workshop in Nairobi on 6-7 December 2008. This book was published as a special issue of the *Journal of Contemporary African Studies*.

Kimondo, Benjamin Owuor, Jane Njuguna, George Okwaro, Aaron J. M. Russell, 2014-12-16 Climate change will impact many sectors of the economy: rural agriculture, biodiversity, hydrology, etc. Farmers are particularly affected since agriculture, livestock, fisheries, horticulture

and agroforestry depend on specific soil rainfall and temperature conditions Mt Elgon s ecosystem is well known for its agricultural production hence our choice to study how the implementation of environmental policies affect the livelihoods of local communities

Madaraka Wanyee Kinuthia,2014-02-15 Madaraka is the Swahili word for self determination Article 2 of the United Nations 1960 Declaration on the Granting of Independence to Colonial Countries and Peoples states all peoples have the right to self determination by virtue of that right they freely determine their political status and freely pursue their economic social and cultural development This book goes beyond the simplistic explanations that are routinely provided regarding the failure of corporate globalization and draws attention to the political economy of this exploitative system in order to effectively address it The book is divided into four parts The first part is comprised of the author s Master s thesis which is accessible online through the University of Ottawa Ottawa Canada as well as Library and Archives Canada This section serves as the foundation of the book by providing a critique of the political economy of corporate globalization as seen through the lens of the exploitative global corporate extractive industry which is marked by increasing inequality oppression and the exploitation of both people and the natural environment exclusively for the pursuit of profit The second

part of the book focuses on Africa and provides an overview of the impact of corporate globalization on the continent. The African experience also demonstrates the contemporary relevance of dependency theory and how the continent's dependence on export-led growth is enforced via Africa's illegitimate debt burden. This explains why African states have been unable to diversify from their dependence on natural resources and chart independent economic paths. The third part of the book discusses the securitization of U.S. foreign economic policy: corporate globalization via the U.S.-led War on Terror and explores a number of initiatives along the security-development nexus. These include the U.S.'s National Security Strategy (NSS) and the Millennium Challenge Account (MCA). This section also discusses the subject of fragile failed states and explains the basic rationale behind U.S. foreign economic policy: that fragile failed states need to embrace neoliberal economic corporate globalization through market-led policies in order to overcome poverty and cease being threats to the more ordered parts of the world. The final part of the book critiques The 9/11 Commission Report, which contains the official account of the 9/11 terrorist attacks and is used to justify the U.S.-led War on Terror. However, this key document lacks sufficient evidence and cannot be used to support a prosecutable case in any court of law. The final part of the book goes a step further and explores the use of state terrorism by Northern countries, particularly the U.S., in its efforts to spread its foreign economic policy: corporate globalization worldwide. This section also discusses the historical use of false flag terrorism by Northern countries in order to further their foreign policy objectives, including well-known and documented examples such as Operation Northwoods, Operation Gladio, and The Lavon Affair. The book concludes by proposing a radical but necessary solution to the crisis of corporate globalization: that we challenge the authenticity of The 9/11 Commission Report and therefore the legitimacy of the U.S.-led War on Terror. More specifically, that we demand a new and independent investigation into the events surrounding 9/11, as this is an indispensable prerequisite to de-securitizing U.S. foreign economic policy: corporate globalization. 9/11 is the Achilles Heel of the entire system of economic exploitation and oppression via neoliberal economic corporate globalization, a system whose main objective is to open up the economies of developing countries to corporations which are mostly based in Northern countries so that these corporations can increase their market share and thereby the wealth of Northern elites.

The Quest for Gender Equity in Leadership
 KeumJu Jewel Hyun, Diphus Chosefu Chemorion, 2016-07-29

The call for gender equity in leadership has become a global concern. From a Christian perspective, all forms of gender prejudice are sinful because they violate God's intention for creating both men and women in God's image. Although many Christian authors have published books and journal articles to address gender-based injustice, very few publications have approached the subject from an African perspective. This book is meant to fill the existing gap. With a specific reference to the African context, this book explores the phenomenon of equity in leadership from various dimensions such as African culture and traditional religion, church tradition, biblical interpretation, as well as from the perspective of contemporary socio-economic and political realities in Africa. By giving vivid examples of

success stories of men and women working together the authors have demythologized the view that women cannot be leaders In addition this book is intended for general readership by Christian men and women throughout the globe For universities and colleges that teach gender studies as a subject the book can serve as a class text or reference resource Seminaries and theological institutions will also find it handy for training and mentoring Christians to promote equity in the church ministry business and family
