Emotionally Dumb An Overview Of Alexithymia:

Emotionally Dumb Jason Thompson, 2009 Alexithymia is an inability to identify and describe both one's own and other people's emotions. Although individuals with alexithymia display the typical physical responses associated with emotions such as tears, butterflies in the stomach or an increased heart rate, they are unable to recognize these responses in terms of the emotions they might be signifying. *Emotionally Dumb* describes the nature of alexithymia and includes therapeutic and self-help suggestions for overcoming some of the difficulties that alexithymia presents. The author discusses the possible causes and associated conditions including Asperger Syndrome and posttraumatic stress disorder. The book provides details of the diagnostic tests available and includes an informal questionnaire developed by the author for people who believe they may have alexithymia. Written in accessible language, this book is ideal both for professionals and for anyone with an interest in the subject.

Internal Perception Sara Dellantonio, Luigi Pastore, 2017-09-19 This book investigates how bodily information contributes to categorization processes for at least some conceptual classes and thus to the individual mastery of meanings for at least some word classes. The bodily information considered is mainly that provided by the so-called proprioceptive and interoceptive systems introduced by Sherrington. The authors reconsider this in a new Gibsonian fashion, calling it more generally proprioception, which indicates the complex of all the bodily signals we are aware of and the qualitative experiences these give rise to. The book shows that proprioceptive information understood in this sense is essential for explaining, among others, how we develop broad categories such as animate vs inanimate concepts denoting bodily experiences such as hunger or pain, as well as emotions and abstract concepts such as friendship and freedom, and in accounting for how we master the meanings of the corresponding words in our language.
