I. OBJECTIVES	At the end of the lesson, learners are expected to: a. Differentiate various models of communication; b. Explain the process of communication through elements involved; and c. Recognize the importance of models in understanding communication process in everyday lives.	The objectives should reflect the concepts of knowledge, skills and attitudes/values (KSAV's). There may be three (3) objectives representing KSAV's. However, a single objective containing KSAV's may be formulated. In formulating the objectives, consider the concepts specified by the MELC and/or enabling competencies. At times, lesson objectives are already specified at the beginning portion of the module.

Enabling competencies are the LCs that appear before the MELC. They are considered enabling as they aid learners and teachers in achieving mastery in dealing with the assigned MELC. For this case, no enabling competencies were mapped for the identified MELCs. The content may be identified by evaluating the concepts portrayed in the MELC. Though the contents specified in enabling competencies are important, still they are not the main focus as these will just help in dealing with the MELC. Usually, the content is already identified in the module.
