And a Time to Die Sharon Kaufman, 2005-04-19 A reassuring and illuminating examination on our conflicting wishes about the end of life how the politics and routines of the American hospital have formed our understanding and experience of death and ultimately why what we consider a good death is so hard to attain In a penetrating and revelatory study medical anthropologist Dr Sharon Kaufman uses two years of intensive observations and interviews with scores of patients family members physicians nurses social workers and other staff at several community hospitals in California to explore the heart of a science driven yet fractured and often irrational world of health care delivery where empathetic yet frustrated hard working yet constrained professionals both respond to and create the anxieties and often inchoate expectations of patients and families who must make decisions they are ill prepared to make She sought out the critically ill the dying and their friends and relatives She followed patients from admission to death days weeks or sometimes months later through what is

often for them and their families a Kafka esque journey She asked hospital staff what they were doing and why and stood beside doctors and nurses observing their work cynicism compassion and frustration And she paid close attention to the most important player of all the hospital bureaucracy and how it impacts the manner and timing of patient death Her investigative research links together the emotional experiences of patients and families the dedicated work of hospital staff and the ramifications of institutional bureaucracy to show the invisible power of the hospital system itself its rules mandates and daily activity in organizing death and individual experience of it The book is the story of real patients and their families an account of what drives the American hospital today and a report on the complex sources and implications of doing something about death

A Chosen Death Lonny Shavelson, 1995 Featuring moving accounts of terminally ill people who have faced the choice of ending their own lives this book adds a profound human dimension to the debate over assisted suicide

Love Is a Journey Mo Guernon, 2025-05-06 Love is a Journey is the remarkable story of Albino Luciani known to the world as Pope John Paul I from his harrowing birth to his tragic death just 33 days into his 1978 pontificate the shortest pontificate in history After years of dedicated archival research and after interviewing dozens of figures in the Catholic hierarchy as well as Pope John Paul I's niece author Mo Guernon explores Luciani's family history personality and character to reveal the very essence of the man who became known as the Smiling Pope Guernon analyzes Luciani's major public pronouncements and his most significant writings which shed considerable light on his fundamental beliefs and worldview In the concluding chapters of the book Guernon assesses Pope John Paul I's legacy and journey toward sainthood and the beguiling question of how the Catholic Church might have evolved had his pontificate endured through the 1980s and beyond The events of Luciani's life are so compelling so remarkable so fast moving that the narrative reads like a novel Guernon paints a multi dimensional portrait of the man that prominently displays his virtues and shortcomings successes and failures heroic deeds and personal doubts about his own courage He highlights Luciani's progressive views of issues of his time the crises in his personal and priestly life his discomfort with the spotlight and his anxiety about succeeding the popular Pope Paul VI the relative simplicity of his inauguration as pope and the unprecedented power he wielded on those with whom he came into contact both personally and through the mass media Above all Guernon attempts to capture the pope's mysterious ability to engender love among people of all faiths and nonbelievers too with his inimitable humility and almost divine smile A striking example of his influence came from punk rocker Patti Smith who was so enamored of Luciani that she wrote a song about the pope and dedicated her 1979 album Wave to him Pope John Paul I's impact on the world during his 33 day pontificate was simultaneously profound and perplexing and until now underappreciated In little more than a month the Luciani dazzled people of all ages races and nations while modernizing the papacy and establishing an ambitious agenda for promoting peace and dialogue among all peoples a program subsequently carried out by his successors particularly Pope Francis And in fact Pope Francis established the Vatican Pope John Paul I Foundation in memory of his beloved mentor Never has a world leader
