photovoltaïques Cythelia Energy,Sylvain Brigand,2024-12-04 En dix ans le solaire photovoltaïque est passé d'une énergie mergente la source d'électricité ayant la plus forte croissance en France et dans le monde. La nouvelle édition de cet ouvrage vise à donner une information pratique et complète sur les aspects techniques du fonctionnement du dimensionnement et de la mise en œuvre des installations solaires photovoltaïques et en particulier des installations raccordées au réseau. Les premiers chapitres expliquent les mécanismes physiques de conversion de la lumière en électricité et décrivent les différents composants d'une installation. Sont ensuite abordés la conception et le dimensionnement d'un système photovoltaïque. Puis l'ouvrage propose un état des lieux des principales lois et normes qui s'y rattachent ainsi que les modalités de valorisation de l'électricité produite qui en dépendent. La mise en œuvre des installations est traitée étape par étape en décrivant le rôle de chaque intervenant. Enfin deux études de cas d'installations photovoltaïques l'une en toiture l'autre en ombrière de parking permettent d'illustrer et de synthétiser toutes les étapes d'un projet jusqu'à son bilan économique. Cet ouvrage s'adresse aussi bien aux architectes et aux maîtres d'œuvre qui souhaitent intégrer des installations solaires photovoltaïques dans un projet qu'aux maîtres d'œuvre et entreprises en charge de la conception et de la mise en place de ces systèmes.

Consommateur entrepreneur (Le) Robert Rochefort,1997-10 Ce livre est la suite de *La Société des consommateurs* qui a rencontré un vif succès lors de sa publication. Robert Rochefort Monsieur Consommation pour les médias y relate l'histoire de la société de consommation en se rappelant plus particulièrement sur la période post-guerre du Golfe où il caractérisait par une consommation de rassurance, de droits de l'homme, d'authenticité, etc. Et il annonce qu'une nouvelle ère allait s'ouvrir celle du consommateur entrepreneur. C'est la description de cette nouvelle figure du consommateur qui fait l'objet de ce livre. Robert Rochefort montre comment les nouvelles formes d'organisation du travail brouillent la séparation entre vie privée et vie professionnelle, comment d'une part le consommateur tend à régler sa vie familiale comme si il s'agissait d'une entreprise, recherche de l'efficacité de la rentabilité de l'optimum, et comment d'autre part il utilise de plus en plus d'objets d'usage professionnel et privés tels que le portable, monospace, ordinateur, etc. Enfin, comment il consomme de plus en plus de produits semi-finis qu'il termine lui-même, meubles en kits, bricolage, vacances actives, etc. Se profile dans ce livre une sociologie du nihilisme post-salarial. En un mot, une société d'entrepreneurs individuels jusque dans la consommation faisant suite à la société salariale des XIXe et XXe siècles. Robert Rochefort est directeur du Centre de recherche pour l'étude et l'observation des conditions de vie CREDOC. Il est l'auteur aux éditions Odile Jacob de *La Société des consommateurs* 1995.
