Elite Youth Basketball Training Manual:

Routledge Handbook of Coaching Children in Sport Martin Toms, Ruth Jeanes, 2022-12-23 The Routledge Handbook of Coaching Children in Sport provides a comprehensive and extensive range of critical reflections of key areas impacting on children's sport and coaching up to the age of 16. With coaching-related chapters authored by academics across various disciplines including nutrition, psychology, pedagogy, medicine, youth development, and sociology, the text provides detailed reviews of the existing state of research and consideration of the implications of these particular factors upon parents, coaches, administrators, and clearly the young people themselves, as well as recommendations for future research. This new volume provides in-depth investigation to key topics of coaching, such as Learning and Child Development, Protecting Young Athletes, Talent Identification and Development, and Inclusive Coaching, and finally introduces a broad array of contextual considerations for coaches from considering professional learning through to coaching in particular contexts. This book is more than simply an academic text; it offers insights that will further inform practice in children's sport coaching. The handbook is relevant for students, UG/PG researchers, academics, parents, coaches, and administrators, as well as those interested in children's sport coaching and the related topics therein. Martin Toms PhD is a senior lecturer/associate professor in the School of Sport, Exercise, and Rehabilitation Sciences at the University of Birmingham, UK. A former professional sports coach with an MPhil and PhD exploring the sociological issues of young people in junior sport, Martin has been heavily involved in juniors' sport all of his adult life. He has published widely and presented extensively around the world on youth sport, including working on international projects and for NBGs, Federations, and National Governmental organisations. He has gained European and SCUK funding for youth and coaching-related projects, as well as being involved in international consultancy. He is a co-editor of the European Journal for Sport and Society, as well as the current Editor in Chief of the International Journal of Golf Science. Ruth Jeanes PhD is an associate professor in the Faculty of Education at Monash University, Australia. Ruth's research examines inclusion and exclusion within youth sport, particularly examining how sport can be used to achieve broader social policy objectives targeted at young people. Within this, she is particularly interested in the role of coaches in facilitating broader social outcomes for young people. Ruth has published extensively in these areas with over 100 publications across journal articles, book chapters, and books. She is widely cited and has been successful in securing extensive funding for her research, including two highly competitive Australian Research Council grants.

Routledge Handbook of Talent Identification and Development in Sport Joseph Baker, Stephen Cobley, Jörg Schorer, Nick Wattie, 2017-03-16 Identifying athletic talent and developing that talent to its full potential is a central concern in sport. Understanding talent identification and its implications for both positive and negative developmental outcomes is crucial to sporting success. This is the first comprehensive resource for scientists, researchers, students, coaches, analysts, and policymakers looking to improve their knowledge of the talent identification and development process. With contributions

from leading researchers and practitioners this book offers a complete overview of contemporary talent identification and development from in depth discussion of methodological and philosophical issues through to practical applications Adopting an international and multi disciplinary approach it addresses all key aspects of the talent identification and development process including skill acquisition and motor learning psychological factors and family influences creating optimal environments for performance and dealing with injury and rehabilitation Presenting an unrivalled wealth of research the Routledge Handbook of Talent Identification and Development in Sport is an essential resource for any undergraduate or postgraduate degree course in sport studies sport science sport coaching or sport management as well as for sport policymakers analysts and coaches

E-Book Paediatric Exercise Physiology Neil Armstrong, 2006-10-13 Children are not mini adults They are growing and maturing at their own individual rates and their physiological responses to exercise are dependent on a large number of variables as they progress through childhood and adolescence into adult life Understanding has been limited by the fact that measurement techniques and equipment developed for use with adults are often not appropriate or even ethical for use with young people These issues are addressed in this book which provides an analysis of physiological responses to exercise in relation to age growth maturation and sex Structured in an easy accessible way for students and lecturers Well referenced including a further reading list with each chapter Numerous standard textbook elements including learning objectives key points and an extensive glossary of terms and commonly used abbreviations The editor and contributors are all active researchers in paediatric exercise physiology with experience of teaching modules in this area
