High School Zoology Textbooks

Alfred Lawrence Hall-Quest

High School Zoology Textbooks:

The Textbook Alfred Lawrence Hall-Quest, 1920 Zoology for High Schools and Academies Margaretta Burnet, 2015-06-02 Excerpt from Zoology for High Schools and Academies At the present day natural science is finding a place in the most elementary courses of study and nothing is wiser or more natural than this since it is in childhood that interest is most readily aroused and the observing faculties most easily trained But the teacher of biology in a crowded graded school has many difficulties with which to contend Every one will admit that he who knows a few things well is better equipped for any field of work than he who has a superficial knowledge of many things and nowhere is this more true than in any department of natural science The zoologist who has thoroughly studied a few typical forms has a basis on which to build which no amount of more general but less definite knowledge can give him Our colleges with well appointed laboratories afford every facility for thorough investigation in dissection and in microscopic and other independent work but in schools where classes are large and time limited and where no laboratory is provided such work is practically impossible After several years of experience in teaching zoology in the lowest grade of a high school the author has become convinced that a textbook in which a few typical forms are clearly yet simply described should be used for class work and this supplemented by outside individual work on the part of the pupil About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Catalogue of High-school & College Textbooks, Including a Complete Index & Price List 1911** Ginn & co., publishers, Ginn and Company, 1911

Catalogue of high-school and college textbooks Ginn and Company, 1911 **A Critical Analysis of Home Economics Textbooks in Secondary Schools** Ella Joy Rose, 1927 **Zoölogy for High Schools and Academies** Margaretta Burnet, 2023-07-18 This textbook provides a comprehensive introduction to zoology including discussions of animal classification anatomy behavior and ecology It is designed for use in high school and academy classrooms and includes numerous illustrations and study questions This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **The**

Origins of the American High School William J. Reese, 1999-01-01 An analysis of the social changes and political debates that shaped 19th century American high schools It reveals what students studied and how they behaved what teachers expected of them and how they taught and how boys and girls whites and blacks experienced high school Routledge

Library Editions: Curriculum Various, 2021-07-09 Reissuing works originally published between 1971 and 1994 this collection includes books which offer a broad spectrum of views on curriculum both within individual schools and the wider issues around curriculum development reform and implementation Some cover the debate surrounding the establishment of the national curriculum in the UK while others are a more international in scope Many of these books go beyond theory to discuss practical issues of real curriculum changes at primary or secondary level The Set includes books on cross curricular topics such as citizenship and environment and also guidance careers life skills and pastoral care in schools A fantastic collection of education history with much still relevant today School Science and Mathematics ,1922 *The Topic of Evolution in Secondary School Biology Textbooks, 1900-1968* Gerald Duane Skoog, 1986
