analysis of data to understand the facts and inner story of the incident was done from the perspective of an observer and the internal causes of Unification Church split changes in identity and doctrine and the nature and religious significance of various events and situations that are difficult to understand for a simple observer was described from an insider's point of view

Foundations of Public Service Douglas F Morgan, Douglas F. Green, Richard T Green, Craig W Shinn, Robert K Robinson, 2015-07-17 Designed to serve as a basic text for an introductory course in Public Administration this innovative work provides students with an understanding of the basic management functions that are covered in all standard textbooks with two important differences First it is written to address the needs of both the experienced practitioner and the entry level public servant Case examples bridge the content rich environment of practitioners with the basic principles of public administration sought by pre service students Second the discussion of basic management practices is grounded in the political and ethical tensions inherent in the American constitutional form of governance This reflects the authors belief that public administration operates as an integral part of the country's political traditions and thereby helps define the political culture The book provides a framework for understanding American political traditions and how they inform public administration as a political practice Key Changes in the Second Edition include A new introductory chapter that explains what the authors mean by a constitutional approach and why that is important An expanded discussion of the role of civil society in promoting the common good A new section in chapter 5 on New Public Governance Updated exhibits that incorporate up to date census data and revenue figures chapter 10 A new section in chapter 14 that recognises the importance of maintaining accountability in contract and networked systems of governance Significantly rewritten chapters to add emphasis on the relevance of the chapter material to nonprofit organisations A significantly revised bibliography which incorporates new bodies of research that have appeared since the first edition

Employees, Trade Secrets and Restrictive Covenants Christopher Heath, Anselm Kamperman Sanders, 2016-11-24 Trade secrets and post contractual non compete clauses restrictive covenants are intrinsically linked issues when analysed in the context of past and present employment While trade secrets have been the object of legislation in a number of major jurisdictions during the last couple of years post employment restrictive covenants have been left out of such legislative activity Still they have come under increasing scrutiny of economists and may well come into legislative focus in the near future As the chapters of this book highlight in detail the approach to the protection of trade secrets the conditions under which an employer can protect trade secrets and other business interests by way of a restrictive covenant and the scope within which former employees by using the skills and knowledge can compete with a former employer hugely differ from jurisdiction to jurisdiction This is not only so for the effective scope but also for the underlying doctrinal reasons making a country by country comparison difficult and a common structure of the chapters a challenge After all the topic involves international law Paris Convention TRIPS domestic labour law domestic sui generis protection and most importantly domestic competition and unfair competition law a field that

up to now has defied all attempts of harmonisation beyond those categories as identified by Friedrich Zoll and implemented as Art 10bis in the Paris Convention This book features both comparative and country specific chapters The latter cover the major jurisdictions of Europe and Asia while the former provide a subject matter analysis by taking into account legislation and case law in a global context *Encyclopedia of Library and Information Sciences* John D. McDonald, Michael Levine-Clark, 2017-03-15 The Encyclopedia of Library and Information Sciences comprising of seven volumes now in its fourth edition compiles the contributions of major researchers and practitioners and explores the cultural institutions of more than 30 countries This major reference presents over 550 entries extensively reviewed for accuracy in seven print volumes or online The new fourth edition which includes 55 new entries and 60 revised entries continues to reflect the growing convergence among the disciplines that influence information and the cultural record with coverage of the latest topics as well as classic articles of historical and theoretical importance *Readers' Guide to Periodical Literature* Anna Lorraine Guthrie, Bertha Tannehill, Neltje Marie Tannehill Shimer, 1919 An author subject index to selected general interest periodicals of reference value in libraries
