Social Media for Project Management Johan Ninan,2022-11-17 The number of projects is increasing worldwide as traditional and repetitive tasks are carried out through automation Projects being temporary and unique while being

adopted globally across sectors presents a challenge for the effective management of environmental economic and social parameters Projects are people centric and require the effective management of internal and external stakeholders In the modern age social media is seen as a tool that connects people across the world having significant implications on everyone s daily life Social media is used for different purposes and encompasses multiple affordances as these are often free and also bring together people from different walks of life who tend to use them differently However the role of social media in managing projects is still under explored In this edited book multiple authors working on the application of social media in projects come together to craft an agenda for the future First the use of social media for internal stakeholders such as managers and engineers are discussed Following this the use of social media for external stakeholders such as communities and project affected persons are discussed Finally the guidelines for education using social media and research using social media is discussed Thus the book brings together multiple authors to discuss how social media can be used in project settings to facilitate interactions and strategic conversations across hierarchical levels and geographic boundaries for diverse goals The book is a valuable resource for all project management academics researchers and practitioners who are interested in learning about the application of social media in project settings

The International Application of FIDIC Contracts Donald Charrett,2019-10-10 FIDIC contracts are the most widely used contracts for international construction around the world and are used in many different jurisdictions both common law and civil law For any construction project the General Conditions of Contract published by FIDIC need to be supplemented by Particular Conditions that specify the specific requirements of that project The International Application of FIDIC Contracts A Practical Guide provides readers with detailed guidance and resources for the preparation of the Particular Conditions that will comply with the requirements of the applicable laws that apply to the site where the work is carried out and for the governing law of the contract for a number of the jurisdictions in which FIDIC contracts are used This book is essential reading for construction professionals lawyers and students of construction law

Today's Space Elevator Peter Swan,2019-09-22 In the last year the International Space Elevator Consortium assessed that basic technological needs can be met with current capabilities and each segment of the Space Elevator Transportation System is ready for engineering validation Because of the availability of a new material as a potential Space Elevator tether the community strongly believes that a Space Elevator will be initiated in the near term Included in the book is a series of appendices that are tremendous references to the status of the space elevator today Included are a lexicon of space elevator terms over 750 references in the bibliography short descriptions of eight ISEC year long studies and two IAA 4 year studies on space elevators as well as a summary of over 20 Architectural Notes covering the development of space elevator technologies

Strategic Project Organizing Graham Winch,Eunice Maytorena-Sanchez,Natalya Sergeeva,2022 Strategic Project Organizing takes a unique approach to project management that places emphasis on the strategic and organizational aspects of projects and their leadership Structured around the

Three Domains model it covers all the fundamental project management concepts whilst guiding the reader through the organizational challenges of enabling positive change Through the lens of strategic leadership this text equips students to know how to respond proactively to threats as well as seize opportunities in order to advantageously change the socio economic environment in an organization s favour The text also helps students to understand the tools and techniques adopted during the process of organizational transformation All chapters offer review and discussion based questions to encourage critical thinking as well as case vignettes and a longer end of chapter case study to help students apply theory to practice Real life projects featured in the case studies include the Eden Project the Thames Tideway Tunnel and the Berlin Brandenburg Airport The ebook offers a mobile experience and convenient access www.oxfordtextbooks.co.uk/ebooks The book s online resources include For students Web links to relevant videos Web links to resources on group work Answers hints to the self test and application questions in the book For lecturers Test bank Major teaching case on CATA 4 Teaching notes for CATA 4 major teaching case PowerPoint slides Additional PowerPoint slides for 3 day teaching block

The Governance of Energy Megaprojects Benjamin K. Sovacool,C. J. Cooper,2013-07-01 Benjamin Sovacool and Christopher Jon Cooper have produced an astonishing and well written book based on extensive original research in twelve countries They explore the technical social political and economic dimensions of four energy megaprojects The large scale of megaprojects always appears to complicate the decision making process and often causes failures Megaprojects may even reinforce corruption and erode democracy It highlights that today s experiences can be explained by statements by Aristotle and Einstein who argue both in their own way that is always wise to take the limits of size into account and to reduce the size of projects wherever this is possible For everybody involved in megaprojects this book must be read Hugo Priemus Delft University of Technology The Netherlands Based on extensive original research this book explores the technical social political and economic dimensions of four Asian energy megaprojects a regional natural gas pipeline network in Southeast Asia a series of hydroelectric dams on the island of Borneo an oil pipeline linking Europe with the Caspian Sea and a very large solar energy array in the Gobi desert This book investigates why energy megaprojects fail to deliver their promised benefits It offers the first comprehensive assessment of the complicated dynamics driving and constraining megaprojects initiated in the rapid scramble for energy resources and efforts to improve energy security The authors approach the assessment of megaprojects from a socio technical angle emphasizing broad issues of political leadership regulation financing interest group opposition and environmental impact as well as conventional technological factors such as engineering design and project management The Governance of Energy Megaprojects will prove insightful for academics concerned about energy policy energy security environmental impact and technology assessment But the book should prove equally compelling to those engaged in the practical management and implementation of large scale energy projects anywhere in the world

Project Management Stewart R. Clegg,Torgeir Skyttermoen,Anne Live Vaagaasar,2020-10-12

Project management is an essential life and workplace skill that everyone must develop Following the popular style and format of other textbooks by Stewart Clegg this brand new co authored textbook on project management provides a much needed European perspective to the subject Drawing on the latest research and practice the authors guide students on an active learning journey through the project lifespan promoting a critical and reflexive approach to studying project management as well as one that creates value for all project stakeholders and emphasizes people and not just process Case studies and examples discussed in the text cover a wide range of projects from large to smaller across different industries and sectors both public and private including megaprojects HS2 mega events Olympics political projects Brexit health related project implementation LEAN tech related projects Google building and restoration projects housing Sagrada Familia and arts and cultural projects European Capital of Culture Incorporating a host of learning features both in chapters and via the supporting online resources this textbook is essential reading for all students managers completing a course unit in project management at either undergraduate or postgraduate level
