

Types of Inference Questions

MATCHING

This type of inference asks a reader to find the details that show someone is nervous, joyful, etc.

Example: How does the reader know Jeff was afraid?

Sample Passage

Jeff looked in all directions and trembled as he made his way through the empty building. He grabbed the doorknob. Then, Jeff walked inside a room.

Answer:

Jeff looked in all directions and trembled as he made this way through the building.

PREDICTIVE

This type of inference requires a reader to think about details that show what will most likely happen next.

Example: What will the scientist likely do next?

Sample Passage

The scientist knew that if she left the plants in the outside tank, they would most likely freeze. She made her way out of the building.

Answer:

The scientist will most likely grab the plants from outside.

Making the Most of Small Groups Debbie Diller, 2023-10-10 Author Debbie Diller turns her attention to small reading groups and the teacher's role in small group instruction. **Making the Most of Small Groups: Differentiation for All** grapples with difficult questions regarding small group instruction in elementary classrooms such as: How do I find the time? How can I be more organized? How do I form groups? How can I differentiate to meet the needs of all of my students? Structured around the five essential reading elements: comprehension, fluency, phonemic awareness, phonics, and vocabulary, the book provides practical tips, sample lessons, lesson plans, and templates, suggestions for related literacy work stations, and connections to whole group instruction. In addition to ideas to use immediately in the classroom, Diller provides an overview of relevant research and reflection questions for professional conversations.

Strategies That Work Stephanie Harvey, Anne Goudvis, 2023-10-10 Since the first publication of *Strategies That Work*, numerous new books on reading comprehension have been published, and more educators than ever are teaching comprehension. In this third edition of their groundbreaking book, authors Stephanie Harvey and Anne Goudvis bring you *Strategies That Work: Teaching Comprehension for Understanding, Engagement, and Building Knowledge*. This new edition is organized around three sections: Part I: Starting with the Foundation of Meaning; these chapters provide readers with a solid introduction to reading comprehension instruction, including principles that guide practice, suggestions for text selection, and a review of recent research. Part II: Part II contains lessons to put these principles into practice for all areas of reading comprehension. Part III: This section shows you how to integrate comprehension instruction across the curriculum and the school day, with a focus on science and social studies. In addition, this new version includes updated bibliographies, including the popular Great Books for Teaching Content, online resources, and fully revised chapters focusing on digital reading strategies for integrating comprehension and technology, and comprehension across the curriculum. Harvey and Goudvis tackle close reading, close listening, text complexity, and critical thinking, and demonstrate how your students can build knowledge through thinking intensive reading and learning. This third edition is a must-have resource for a generation of new teachers and a welcome refresher for those with dog-eared copies of this timeless guide to reading comprehension.

Teaching Kids to Think Critically Clifton Chadwick, 2014-09-12 This book is based on a simple series of psychological concepts. While ability to think has always been important, the knowledge economy significantly increases the demand for higher-order thinking and problem-solving abilities. Parents should take a much more active role in teaching their children to think. Early preschool years are

critical because long term attitudes and early strategies are learned then Approaches and perspectives on learning to think can be clearly communicated to parents in ways which will make it possible for them to use the correct strategies to stimulate their students to think more clearly and critically There are five elements involved in good logical critical and creative thinking 1 The skills involved in effective efficient and lasting learning or commonly referred to as cognitive processing strategies 2 The mastery of logic and structure of what is being learned 3 Awareness of what one knows and does not know and how one knows and how one thinks 4 The standards or guidelines for the validity and reliability of what one knows called intellectual standards 5 The knowledge and skills involved in critical thinking and solving problems in different subjects or domains
