ComfortHeat

IdealFlame

Comfort Heat™ technology, the ultimate in heating comfort . . .

The Carrier Infinity™ 96 with ComfortHeat™ technology achieves the optimum combination of comfort and efficiency.

The Infinity™ 96 achieves industry-leading ultra-high efficiency at up to 96.6 percent Annual Fuel Utilization Efficiency (AFUE). Efficient performance is enhanced through the variable-speed design. To maintain ideal comfort, ComfortHeat™ technology automatically adjusts the heating level, maximizing the use of low heating levels that produce near silent furnace operation while meeting the exact heating needs. This unit is designed to keep the indoor temperature within 1 degree of the thermostat set-point. Because it operates in low heat most of the time, the Infinity™ 96 uses up to 80% less power than single-capacity furnaces.

In addition to providing ultimate comfort, the Infinity™ 96 has a sealed combustion system. This system brings combustion air to the furnace and vents flue gases outside the furnace in a safe manner. Because it is sealed, operational noise is minimal. A sealed combustion system also means fewer cold drafts and less air infiltration.

Quality materials are the key behind the Infinity™ 96's outstanding performance. Carrier stands behind quality. We offer lifetime warranty protection* on the heat exchangers, the heart of the Infinity™ 96. The rest of the unit is backed by a limited 5-year warranty.

The Infinity™ 96 is available in 6 heat/airflow combinations. The unit has a 4-way multipoise design and can be installed in upflow, downflow, or
