woman irrationally refuses to accept that she's been converted into some crazy cyber scientist's new cyborg prototype. Accept it or not though her denial won't stop the bad guys from trying to recapture her. Just ask Peyton. Sympathy is a stretch but Marcus understands why Rachel doesn't want to be a cyborg. After all her conversion wasn't voluntary like his. But Rachel wants a life without any cyborgs in it including herself which will never be her reality again. It's time she got used to that fact. Why is he so determined? Because he's already lost all he can stand to lose in his life. He refuses to lose Rachel too.

Peyton 313 Donna McDonald, 2014-09-17 Peyton 313 is the first book in a futuristic Science Fiction and Fantasy series from USA Today Bestselling Author Donna McDonald. The war was over long ago but the fight for their humanity is just beginning. Dr. Kyra Winters certainly never meant for her work to be used for anything evil even though that's exactly what happened. Her studies in cyber conversions and genetic engineering were supposed to make the world a better place. The best soldiers got converted into Cyborgs to fight a World War no one wanted to be reminded of ever happening. Enslaved by their programming ten years ago the Cyborgs have no idea that the war they signed up to fight is over. Or that a fight for their humanity is just beginning. If the current world powers had any proof of her reversal experiments Kyra would be killed for even trying to free them. She's already lost two Cyborgs due to her failures. Are Peyton 313's chances any better? Failure is not an option Kyra can even consider since she's out of both money and time. The fate of all cybernetic humans rests on her successfully restoring the cyborg who was once Marine Captain Peyton Elliott. Worst epic fail of her scientific career. Caring too much for a cyborg she helped create.

ABOUT THIS SERIES Set in the future this science fiction action and adventure story explores military boundaries in a tale of created cyborgs and genetic engineering. It contains strong elements of romance for both paranormal romance and science fiction romance fans. It's set in a futuristic urban environment. Awesome story I so liked this. Marcus 582 Donna McDonald, 2015-11-16 Love is not logical. Neither is leaving her alone. Restored Cyber Soldier Marcus 582 knows the chances of dating reluctant cyborg Rachel 235 are slim. His cyborg mind can't calculate the odds of her loving him back with any accuracy. His human side certainly feels Rachel's resistance to his every romantic overture. Yet no data he collects changes the fact that he's compelled to care for and protect her. Marcus understands why Rachel doesn't want to be a cyborg. After all her conversion wasn't voluntary like his. But she wants a life without any cyborgs in it including herself. Too bad though he can't give it to her. He's already lost all he can stand to lose in his life. He refuses to lose Rachel too.
